ANNUAL REPORT 2019-20

# **STRONG TODAY FOR A BRIGHTER TOMORROW**

We have lived through strange times in the last few months. India has been uprooted from its state of normalcy and the country is dealing with uncertainty, disruptions in business and new norms of social distancing. It takes a strong foundation to weather the biggest storm this generation has seen. And the testing times showed us that we are stronger than ever.

Every member in the Britannia ecosystem stood up to the occasion, braving hurdles that came their way – from rapidly changing laws, health and hygiene practices, to lack of labour and transportation.

It is not the fastest or the strongest who will thrive in this environment. It will be the ones who are the most adaptive. We have worked together as a team, adapted every day, come up with innovative ways of working and kept the wheels of business in motion better than ever before.

We have been driven by the hunger to build our business and at the same time, help our nation by staying committed to our vision of providing affordable nutrition to all. And it is this never-say-die attitude that gives us hope that tomorrow will be a Good Day – for India, for Britannia.

#### c. Overview of Company Performance

Your Company witnessed moderate growth in the first half of the year. The last part of 4<sup>th</sup> quarter was impacted by the unforeseen development of the COVID-19 pandemic. Despite the challenging business environment during the year 2019-20, your Company was able to increase its market share and improve profitability through innovations, cost efficiency programs and expansion in distribution.

COVID-19 has had a catastrophic impact on people and economy globally. We, in Britannia focussed on the following during this crisis:

(a) Safety of employees and other stakeholders &

- (b) Ensuring availability of our products, which are daily essentials, across the country.

During this crisis, the Wadia Group of Companies contributed to the nation's cause by providing 1.35 crore meal & meal equivalents and 90 lacs of bakery packs to the less fortunate, especially migrants, across 19 states and 110 cities.

Your Directors wish to place on record their appreciation to the Company's employees, suppliers, customers & Government authorities for their selfless efforts which helped your Company reach normalcy in operations within few weeks of lock-down. The ownership and responsiveness shown by all the stakeholders is unparalleled and is a testimony of the spirit of this great organisation.

Your Company shall review the long term impact of the pandemic and take all steps necessary to adapt itself to emerging changes and the new normal.

#### d. Subsidiaries, Associates and Joint Ventures

A report on the financial performance of each of the Subsidiaries and Associates included in the Consolidated Financial Statements is provided in Form AOC-1 and forms part of this Annual Report. ## **II. OPERATIONAL PERFORMANCE**

#### **a. The Britannia Promise to Spread Delight**

The desire to delight consumers with products that deliver excitement and goodness in every bite is at the heart of Britannia's promise. Your Company's commitment to deliver unique and ecstatic experiences to consumers continued to be the guiding principle of operations.

#### **b. Supply Chain & Operations**

Your Company, in the quest of improving competitiveness in its operations, has been carrying out various Cost Efficiency and Operational Excellence Programs across the value chain. During the year, your Company implemented Small Group Activity Programs across all its factories to strengthen the culture of safety of workers in such programs. Further, your Company successfully commissioned 3 Biscuit Lines and 1 Snack line at the Integrated Food Park, Ranjangaon, Maharashtra and operationalized its greenfield unit in Nepal.

#### **c. Environment, Health and Safety**

EHS policy of your Company drives Zero Accident Culture and that stands out as a Key differentiator to drive workplace safety initiatives. Your Company, during the year, reduced recordable injuries by 27% over the previous year.

All our manufacturing units are certified for conformance to OHSAS 18001 standards, other than a few recently commercialized units. Your Company manages occupational health and safety by systematically assessing the hazards and mitigating risks through awareness programs and safety training for employees.

Your Company has constituted a Central Medical Council that addresses health and hygiene needs at workplace by engaging with occupational health experts and providing advice to site based medical and paramedical staff to proactively manage health and wellness of employees.

A process was put in place to manage risks related to COVID-19 by day-to-day health monitoring of all employees and sanitising the workplace with the highest standard. Social distancing measures go beyond plant boundaries and all transport vehicles adhere to stipulated needs outlined by the government.

Your Company has also constituted a Central Environment Council led by subject matter experts to enable compliance to air, water and solid waste management. Water stewardship plan is in place to move towards water conservation and recharge.

#### **d. Quality Programs**

Quality and Food Safety continue to be key priorities for your Company. Your Company's efforts to ensure delivery of superior, safe and compliant products to its consumers were further strengthened during the year.

You would be happy to know that all the existing manufacturing units of your Company including contract manufacturing units are certified by an accredited third party in accordance with 'Hazard Analysis Critical Control Points' (HACCP) / ISO 22000 standards and operate in compliance with stringent food safety and quality standards.

Your Company has received American Institute of Baking (AIB) Certification for 13 of its manufacturing units through compliance to Global Food Safety Standards.

Your Company's "Consumer Care Cell" continues to be compliant to the 'Global standards on customer satisfaction & Guidelines on complaint handling' and sustained the revised requirements and certification ISO 10002:2018 during the year.

You will be delighted to know that your Company was recognized as “Food Company of the Year 2019” for the second time in succession at the India Food Safety Excellence Awards 2019 organized by SYNEX.

**e. Research and Development (R&D)**

In its quest to be a ‘Global Total Foods Company’, your Company is leveraging its R&D capabilities and expertise to innovate & renovate, provide world class products, improve packaging and reduce wastages.

Your R&D team has been working relentlessly towards building technology capabilities to provide more nutrients in Company’s product portfolio. It has successfully built capability to use alternate cereals, whole grains, super seeds and protein isolates in the product portfolio.

During the year, “Britannia Nutrition Policy” was also adopted with the objective to provide consumers with convenient, delightful food choices to meet their daily nutritional needs and thereby contribute to a better quality of life and address major country specific nutrition related public health concerns like undernutrition and iron deficiency anaemia.

As part of its continuing efforts to ‘Make a Difference’ to the community, your Company continues to invest in research and development to address key nutritional deficiencies. According to National Family Health Survey 4 (2015-16), anaemia continues to be a prime health concern across India with ~53% of the women being anaemic. In order to address Iron Deficiency Anaemia (IDA), your Company has developed a tasty and affordable Iron & Folic Acid fortified biscuit delivering 50-75% RDA of these nutrients to the women.

You will be happy to know that the ‘Suphoshan’ Nutrition Intervention Program undertaken by the Britannia Nutrition Foundation (BNF), Narayana Health Charitable Trust and National Health Mission, Government of Rajasthan in adolescent school going children with iron and folic acid fortified biscuits developed by your Company’s R&D team has led to significant increase in the haemoglobin levels in adolescents.

You will be delighted to know that your Company is the highest scoring among Indian headquartered companies in meeting the nutrition needs of consumers declared by “Access to Nutritional Index” (ATNI) in the 2<sup>nd</sup> iteration of the India spotlight 2020. Your Company was acknowledged for significant improvement since the last index in 2016.

Your Company aims to recycle, reduce and recover used plastic for sustainability. R&D team has been continuously working to reduce usage of plastic by removing plastic trays from the portfolio and is in the process of developing 100% reusable packaging. Your Company has successfully scaled up Extended Producers’ Responsibility (EPR) initiatives PAN India for multilayer and plastic packaging waste collection and energy recovery in association with IPCA (Indian Pollution Control Association).

**f. Conservation of Energy, Research and Development, Technology Absorption, Foreign Exchange Earnings and Outgo**

**g. Brands**

2019-20 was a challenging year due to economic slowdown in the country impacting consumer spending. However, your Company’s focus on brand building, delivering superior products and creating point of view based communication ensured growth and market leadership.

This was made possible by a host of marketing strategies and interventions.

**Experiential activation of Brand Britannia - Britannia Khao World Cup Jao**

Your Company brought back one of its most memorable campaigns – *Britannia Khao World Cup Jao* in April 2019. The nostalgic campaign, which debuted in 1999, brought together your Company and ICC Men’s Cricket World Cup, with the mega prize of trip to watch live match in England and Wales.

The promotion also offered a bouquet of experiences and rewards to millions of consumers. The share of voice that the campaign garnered across media was unparalleled by any other brand which was active around the sporting event.

**Strengthening core brands with activation and advertising**

Your Company’s leading biscuit brand, Good Day strengthened its presence in the market with new campaign in November 2019 which starred Deepika

Padukone, leading Bollywood Actor. The campaign “*Khushiyon Ki Zidd Karo*” was to encourage people to reprioritize their goals and chase happiness instead.

Britannia Marie Gold launched the 2<sup>nd</sup> season of ‘*Britannia Marie Gold My Startup*’ initiative which provides financial assistance to homemakers with entrepreneurial ideas. This year, the brand partnered with National Skill Development Corporation (NSDC) to launch India’s first-ever skill development program customized for women with entrepreneurial aspirations. 10,000 women homemakers from across the country will undergo this online certification from the comfort of their homes. The *Britannia Marie Gold My Start Up* initiative is designed to help India’s homemakers become financially independent and transform them into job creators.

Your Company also expanded its brand Milk Bikis to North & West India with new campaigns, market visibility and intensive sales efforts.

#### **Powerful Relaunches**

Your Company has re-launched NutriChoice Cream Crackers and NutriChoice Thin Arrowroot with improved product mix, visual product differentiation and differentiated packaging which have helped these brands to grow much faster than the industry.

**Innovation Leadership - Britannia has re-enforced its thought & market leadership through multiple pioneering innovations**

Britannia nurtured innovations that were launched at the end of FY 2018-19 - Britannia Treat Burst, Britannia Treat Stars and Britannia 50-50 Jeera during FY 2019-20. In addition, two variants were launched under Treat - Tiramisu and Red Velvet as an “in and out” during the year and these were received very well by the consumers. Little Hearts Strawberry was also launched which is under test marketing in Maharashtra.

**Wooing the millennial, digital consumers through disruptive digital content**

Little Hearts, a digital only brand, had launched a differentiated campaign for Valentine’s Day, with a first-of-its-kind Qawwali- Rap battle, featuring Kaam Bhari and Ahsaas Channa. The brand-new song released on the eve of Valentine’s Day is set in a rap-meets qawwali genre and is a fresh, fun and edgy take on heartbreaks and received more than 10 million views.

#### **Britannia Good Day, India’s Most Trusted Food Brand in reputed nation-wide consumer survey**

In the reputed ‘Most Trusted Brands’ survey conducted every year by The Economic Times Brand Equity publication, Britannia Good Day won the coveted position of Most Trusted Food brand in the country. The brand also secured the position of the 3<sup>rd</sup> most trusted brand in the country, a testimony to the immense love and trust our consumers across diverse age groups and demographics bestow on us.

Marie Gold and Bourbon also featured in the most trusted food brands in the same survey, in 6<sup>th</sup> position and 11<sup>th</sup> position respectively.

### **Sir Ness Wadia Foundation**

Established in 1969, Sir Ness Wadia Foundation (SNWF) a registered non-profit organization was set up to work for the empowerment of the underprivileged sections of our society. It aims to fulfil their basic needs of health, education and livelihood, and strives to create empowered and self-sustainable communities.

Inspired by the life and work of the renowned industrialist and philanthropist Sir Ness Wadia, SNWF is one of India's oldest philanthropic institutions, and has played a pioneering role over the years in bringing about a positive change in society.

The Foundation provides hope, empowerment and an improved quality of life to less fortunate individuals. Through a long journey from its inception, SNWF has evolved into an organization of exceptional repute, providing incomparable services in the fields of nutrition, education, health care, community development and relief & rehabilitation. To address malnutrition in the country, SNWF is supporting and monitoring several ongoing projects in India.

### **Providing relief to the needy impacted by COVID-19**

Britannia has proudly served the nation for over a 100 years through good times and tough times. Be it any kind of crises, your Company has always stepped up to serve people in need. The COVID-19 pandemic, probably the most staggering health and humanitarian crises the country has seen, saw us get swiftly into action and mobilize our supply chain infrastructure to be able to serve the effected people.

Your Company focused its efforts on the core constituency of people who were in need of food, people whose lives were impacted by loss of livelihoods or by the disruption in supply of Essential Foods. They included the elderly, daily wage earners, migrant workers, domestic servants, laborers, contract workers, anganwadi children, BPL families and slum communities.

Your Company's goal was to deliver food efficiently and at scale and so we partnered with various state governments and NGOs who were servicing people most in need of food. While we focused on the most impacted states to begin with, the operations soon expanded to many states and districts across the country. Your Company has distributed a diverse variety of food relief - bakery and dairy products, food rations and hot meals, depending on the need of the community.

Your Company struck large scale partnerships to serve communities that would otherwise have been beyond our reach and in parallel, also initiated significant food relief work using our own infrastructure in communities around our factories in Perundurai, Madurai, Hajipur, Kolkata, Guwahati, Gwalior, Mundra, Jhagadia, Bidadi and Ranjangaon. Thousands of ration kits containing rice, pulses, wheat flour, spices and oil were distributed in villages where our factory workforce reside.

In early May, as the various state governments began operating the 'Shramik' trains to take the migrant labour fraternity, including women and children to their hometowns, your Company ensured that biscuits and sweet buns offered them comfort on their long journey back home.

When large numbers of migrant workers began walking or using any available means of transport to go back to their home towns, our depots turned into relief centres, offering them much needed hot meals and a quick shot of energy through biscuits and water.

Your Company set up dedicated task forces of cross functional and cross geography teams to lead the food relief initiatives. On the logistics front, hygiene and social distancing protocols were followed every step of the way.

During this crisis, 1.35 crore meal & meal equivalents and 90 lacs of bakery packs were distributed by the Wadia Group to the less fortunate, especially migrants, across 19 states and 110 cities.

Your Company shall continue to extend wholehearted support to the Government machinery and civil society groups until such time as normalcy returns.

Your Company is proud to be Indian and even prouder to be with Indians through these difficult times.

## MANAGEMENT DISCUSSION AND ANALYSIS

### (A) INDUSTRY STRUCTURE AND DEVELOPMENT

Your Company is among the most trusted food brands in India with a wide and growing portfolio of products in the food segment covering Biscuit, Bread, Cake, Rusk, Dairy and Adjacencies.

The unprecedented outbreak of COVID-19 impacted the global economy and human life, making it a very challenging environment for all the businesses. The changes forced on people and businesses by the pandemic are likely to last for some time and established ways of doing business may undergo changes leading to new ways of working.

Your Company was able to successfully manage immediate challenges of re-establishing normalcy in business operations and is in the process of assessing the long-term implications and opportunities that may emerge from this situation.

Your Company's assessments, strategies and prospects outlined in this report are to be read in the context of the evolving situation.

#### **BAKERY BUSINESS**

##### **Biscuit**

Biscuit, as India's largest food category, is considered as an essential, in practically every Indian family's consumption basket. It is one of the most deeply penetrated categories in the country, reaching over 90% of the households. The per capita consumption of biscuit in India is comparatively low at 2 kgs versus 10 kgs in certain developed countries. The low per capita consumption and high levels of penetration provide a good base to increase consumption through appropriate business strategies.

##### **Cake**

Cake is an evolving category which has witnessed some breakthrough developments in formats, pricing and variants in the last few years. The category growths have slowed down due to sluggish economic conditions and there has been significant increase in the competitive activity.

##### **Rusk**

Rusk is a traditional category with a reasonable level of unorganized play. The category has not witnessed any significant technology changes or product innovation in India. This category, however, has multiple value-added product offerings in other countries.

##### **Bread**

Bread is considered as a staple food in many parts of our country. Consumer preference for healthy & premium products is providing significant opportunity in this category.

##### **DAIRY BUSINESS**

India is the largest producer and consumer of dairy products and currently contributes ~20% of the global production. This category, is currently dominated largely by unorganized players. The organized segment of the Indian Dairy Industry is growing and has a great role to play in the future development and growth of the industry.

In the past few years, the processed milk products market has witnessed sustained growth due to increasing urbanization, rising disposable income and proliferation of retail outlets beyond Tier 1 cities. While packaged liquid milk will remain a key driver of the industry growth, value added dairy products are also expected to witness healthy growth.

##### **ADJACENT BUSINESS**

##### **Cream Wafers**

Wafers is a ~₹ 700 Crores category growing at a healthy pace and your Company is the first branded player with a large national presence to enter this fragmented category. The fragmented and unorganized nature of the segment offers tremendous opportunities for growth.

##### **Center Filled Croissants**

It is practically a new category in India. However, it is a very large category in many developing countries in the world. Your Company's entry into this nascent category is based on the tremendous potential it holds, given the shifts in the lifestyle and consumption habits of the youth.

##### **Salted Snacks**

Snacking is inherent to Indian food culture and is an important category of your Company's adjacent business. It has traditionally implied a variety of sensorial experiences in terms of flavour, taste, shape, texture, ingredients, appearance & accompaniments. The category is very large and highly competitive with more than 2000 players operating in it. Migration from unorganized or local to branded products will drive growth for national players like Britannia.

## INTERNATIONAL BUSINESS

International Business for your Company is largely around Middle East, America, Africa, ASIAPAC and SAARC. The environment in these geographies is competitive with many local and international players. International business is also fraught with other challenges such as geo-political conflicts, import duty barriers, exchange rate dynamics etc.

## (B) BUSINESS STRATEGY

### BAKERY BUSINESS

#### Biscuit

**Create a Strategy to Win in “Many Indias”:** Each part of India has a different consumer need and food choices vary by state. Large brands like Good Day, Milk Bikis and Mariegold have employed localized strategies to meet the unique needs of different markets and fight local players. A focused and localized strategy has been adopted for the Hindi Heartland states as well.

**Renovate to Strengthen the Core:** In a category where little differentiation exists, visual and taste superiority are critical. Your Company’s strategy is “continuous differentiation” to stay ahead. Towards that end, your Company re-launches its brands regularly, with focus on visual distinctiveness, product superiority and newness leading to an elevated brand proposition.

**Lead the market with an edge in Distribution:** Scaling up the width of distribution has been one of the key pillars of your Company’s growth over the last 7 years. Your Company’s endeavour, will be to continue this strong growth backed by a strategy to increase both depth and quality of distribution. In addition, focused strategies are being deployed to win in the fast growing organized retail channels.

**Engineer upgrades and tap into consumers moving up the economic ladder:** Biscuit category has reasonable skew towards the value segment. Your Company’s strategy has been to consistently drive upgrades through right products, packs and insightful communication and this strategy is being continuously improved upon to gain market share.

**Lead with new to market concepts and innovations:** Your Company’s brands continuously endeavour to disrupt the markets through launch of new-to-market formats, thereby addressing more and more consumption occasions and delivering specialized benefits. The pillars

of your Company’s innovation strategy include deriving inspiration from adjacent categories (like choco bakery, cheese bakery, cracker and snacking etc), reimagining health, exploring newer flavours and leveraging current and new technologies.

#### Cake

Your Company’s immediate strategic priorities are to revitalize the base cake segment through interventions in key geographies and provide organoleptically superior products in new-to-market formats, at affordable price points.

#### Rusk

Your Company’s strategy is to continue to invest in technology and recipes to offer different varieties with superior taste and quality to consumers at affordable price points. The key objective is to attain segment leadership by constantly understanding what the consumer seeks from the category and by being the first to offer products of superior quality to the satisfaction of consumer expectations.

#### Bread

Bread is positioned as one of the breakfast offerings of the Company & is integral to the Company’s aspiration to be a Total Foods Company. Your Company continues its focus on leading the health portfolio in the market, while, working on developing differentiated products like atta pizza, cheese garlic bread etc.

#### DAIRY BUSINESS

Your Company’s strategy in the dairy business is to focus on strengthening its core categories such as Cheese and Yoghurt, while innovating in other categories such as Drinks. Your Company intends to make significant investments in the back-end capabilities of the dairy business. As part of this effort, your Company’s milk procurement in Maharashtra has been scaled up to 25,000 Liters/day from 1000 farmers in and around Ranjangaon.

#### ADJACENT BUSINESS

##### Cream Wafers

Cream Wafers, as a category, is experiencing significant growth. The response from consumers to Britannia Treat Crème Wafers has been most encouraging and enabled your Company to become a significant player in this category within a year of its launch. Your Company’s strategy is to drive category penetration by building the base business and launching new-to-market formats.

### **Center Filled Croissants**

Your Company launched center filled Croissants under the brand 'Treat' in select geographies & trade channels. Your Company aims to recruit consumers into this category through awareness and product trials. A state-of-the-art manufacturing facility for Croissants has been set up in Ranjangaon, Maharashtra, enabling your Company's aspirations to lead this category.

### **Salted Snacks**

Your Company's strategy is to achieve strong position in this category by offering disruptive and differentiated products at competitive prices.

### **INTERNATIONAL BUSINESS**

Your Company's strategy to achieve growth and market share in International Business is to:

- (a) strengthen foothold among the Indian diaspora across markets;
- (b) develop new products to recruit local ethnic clusters;
- (c) leverage capabilities of India operations; &
- (d) establish local operations for scaling up.  
Eg. Nepal

### **(C) SEGMENT INFORMATION**

The primary business segment of your Company is Foods.

### **(D) OUTLOOK**

During the year, Indian economy witnessed significant slowdown impacting consumer demand. The global trade tensions and credit squeeze in domestic market played a major role in driving down demand and growth expectations. Just when the markets were recovering, an unprecedented calamity in the form of the COVID-19 pandemic affected the world, leading to forced lock downs and large-scale disruptions. This may lead to fundamental shifts in consumer behavior in future and present new opportunities and threats to businesses. Your Company expects to face this situation by harnessing the intrinsic strengths of its brands, innovation capabilities, strong distribution network and cost efficiency programs. Your Company is well positioned with its strong management team, technology interventions and robust processes to address any changes that may emerge post COVID-19.

### **(E) OPPORTUNITIES AND THREATS**

While we need to evaluate the long-term impact of COVID-19 on consumer preferences in various categories, with food being an essential commodity, we expect your Company to perform better on a relative basis.

#### **BAKERY BUSINESS**

##### **Biscuit**

The per capita consumption of biscuit in India, relative to certain developed economies, continues to be quite low offering significant opportunities for category growth. In view of the wide-spread penetration of biscuit among households (above 90%), the opportunity for innovation and scale is large in this category.

The threat in this segment is expected to arise from competitors who are investing significantly to encash on these opportunities.

##### **Cake**

The primary threat in this segment comes from the emergence of disruptive formats at entry level price points. This trend provides opportunities to drive category penetration and growth through use of the latest technology and wide distribution.

##### **Rusk**

The fragmented and unorganized nature of the segment offers tremendous opportunities for growth. There is scope to expand the consumer base by offering superior quality products at the right price points. Necessary investment in technology and recipes is being made to enable your Company to capture market share in this segment.

##### **Bread**

Your Company plans to become a truly national brand in Bread by expanding its footprints to other profitable markets. Major investments by competitors in infrastructure to produce high quality products and higher media spends continue to pose challenges for the Company's business.

#### **DAIRY BUSINESS**

Your Company foresees the following untapped opportunities in the market:

- New and healthier dairy formats.
- Availability of convenient on-the-go packages at affordable prices.
- Gaining share from the unorganized segment.
- Strengthening footprint in areas of low penetration.

Your Company sees quality milk procurement and continuous infrastructure improvement including cold chain as the primary growth challenges. To address these challenges, your Company has been continuously investing in farmer connect programs, scaling up milk procurement capabilities, ensuring consistency in quality of raw material and strengthening cold chain distribution.

#### **ADJACENT BUSINESS**

##### **Cream Wafers**

Low penetration and fragmented nature of the category offers immense potential for growth. However, the entry of new national players with differentiated products at competitive price points is expected to pose significant challenges to growth.

##### **Center Filled Croissants**

Your Company has the opportunity to create a category which is new to the country. The segment is nascent and the challenge for your Company would be to persuade change in existing consumer habits in order to make Croissant an everyday choice for today's consumers.

##### **Salted Snacks**

The Salted Snack category is witnessing intense competition, with leading national and regional competitors investing significantly in advertisement, celebrity endorsements and large discounts to gain market share. While this is a huge challenge, these interventions have also helped create an opportunity for rapid growth and it is expected that this category could soon overtake biscuit as the largest packaged foods category. Hence, it is essential for your Company to partake in this growth through focus on product innovation and market competitiveness.

#### **(F) RISKS AND CONCERNs**

The growth of your Company's portfolio is linked to the overall economic growth. Primary risk to the business will be on account of adverse changes to the economy. Further, the changes in consumer behavior, buying patterns and working environment arising due to COVID-19 pandemic may pose some challenges for the businesses.

#### **(G) FINANCIAL AND OPERATIONAL PERFORMANCE**

The key standalone financials are:

#### **(I) INTERNAL CONTROL SYSTEMS AND ADEQUACY**

Your Company's Internal Control Systems are commensurate with the nature, size and complexity of its business.

The Directors have laid down internal financial controls to be followed by the Company and such policies and procedures have been adopted by the Company for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, safeguarding of its assets, prevention and detection of frauds and errors, accuracy and completeness of accounting records and timely preparation of reliable financial information.

An external independent firm carries out the internal audit of the Company and reports its findings to the Audit Committee on a regular basis. Internal Audit provides assurance on functioning and quality of internal controls along with adequacy and effectiveness through periodic reporting. Internal Risk & Control function also evaluates organisational risk along with controls required for mitigating those risks.

Your Company has a Code of Business Conduct for all employees and a clearly articulated and internalized delegation of financial authority. These authority levels are periodically reviewed by management and modifications, if any, are submitted to the Audit

Committee and Board for approval. Your Company also takes prompt action on any violations of the Code of Business Conduct by its employees.

During the year under review, the Internal Financial Control (IFC) Audit was carried out by the Statutory Auditors, the Report of which is forming part of the Annual Report.

#### **(J) HUMAN RESOURCES AND INDUSTRIAL RELATIONS**

Your Company continued its journey to bring to life, the Employee Value Proposition - “MAKE Ti)NGS HAPPEN”, across various employee touch points and emphasizing its core values of **Inviting**, **Igniting**, **Creating** and **Respecting** during this year.

**Inviting:** To reinforce a culture of inclusion and openness to diverse opinions, your Company introduced various digital elements to employee connects. Action plans based on the findings of the annual engagement survey were formulated through these connects. The annual engagement survey called “Dil Se”, has seen a positive 4 year trajectory and your Company is in the Top Quartile of FMCG Companies in India. This engagement survey serves as a yardstick to understand the perception and satisfaction of employees towards various interventions and cultural nuances of your Company. Continuous listening and acting on feedback have helped build a culture of trust in your Company which has resulted in excellent performance and retention of talent.

To build pride and advocacy within the organization and external stakeholders, your Company participated in an engagement and culture audit through the AON Best Employer Study 2019. This involved analysing the engagement sentiments of employees as well as looking at the policies, leadership drive and culture of your Company. The result was that your Company was recognized as one of the Top 16 Best Employers (2019) in India.

**Igniting:** Focusing on learning across cadres through structured blended interventions, your Company established targeted development programs to fuel the growth ambitions of its people by honing and nurturing their potential. The strong management team in your Company fosters a culture of experimentation, agility and efficiency while empowering and enabling employees to try their hand at new things, stay relevant, set new benchmarks and chase excellence.

**Creating:** The leadership team in your Company endorses home grown talent and is equipped with the capability to focus on performance orientation while betting on and coaching employees to enhance their potential for bigger and more challenging roles. This is done by giving them a platform to perform and learn on the job early on in their careers, thereby building talent pipeline and making the organization future ready, while paving way for enriching careers. Your Company continued to champion this philosophy, popularly known as ‘Britannia for Britannians’ internally.

Performance and its evaluation is objective, transparent, meritocratic and development focused. Employees are given a chance to express their input on goals and performance through the year via metrics and achievement scores, reducing the scope for subjectivity and bias. The year-end and mid-year developmental conversations enable a dialogue on strengths as well as focus areas to build careers based on aspirations and opportunities.

**Respecting:** Encouraging employees to live holistically, your Company introduced opportunities where employees could partner with the organisation to give back to society through paid time-off for volunteering. Your Company institutionalized the employee wellness agenda through a gamut of on-site and digital interventions focusing on the four pillars of wellness which is body, mind, soul and financial wellbeing.

As on 31 March 2020, your Company had 4,535 permanent employees on its rolls.

#### **(K) CAUTIONARY STATEMENT**

Statements in this Management Discussion and Analysis describing the Company's objectives, expectations or predictions may be forward looking within the meaning of applicable laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to your Company's operations include raw material availability and prices, cyclical demand and pricing in the Company's principal markets, competitive actions, disruptions caused by pandemic and natural calamities, changes in Government regulations, tax regimes, economic developments in India and in countries in which the Company conducts business and other incidental factors.

## INDEPENDENT AUDITORS' REPORT

**To the Members of Britannia Industries Limited**  
**Report on the Audit of the Standalone Financial Statements**  
**Opinion**

We have audited the standalone financial statements of Britannia Industries Limited ("the Company"), which comprise the standalone balance sheet as at 31 March 2020, and the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2020, and profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

**Revenue recognition**

See note 3(h), note 26 and note 55 to the standalone financial statements

The key audit matter	How the matter was addressed in our audit
The principal products of the Company comprise food products that are mainly sold through distributors, modern trade and direct sale channels amongst others. Revenue is recognised when the customer obtains control of the goods. We identified revenue recognition as a key audit matter because the Company and its external stakeholders focus on revenue as a key performance indicator. This could create an incentive for revenue to be overstated or recognised before control has been transferred.	<p>In view of the significance of the matter we applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence:</p> <ol style="list-style-type: none"> <li>1. We assessed the appropriateness of the revenue recognition accounting policies by comparing with applicable accounting standards.</li> <li>2. We evaluated the design of key controls and operating effectiveness of the relevant key controls with respect to revenue recognition on selected transactions.</li> <li>3. We performed substantive testing by selecting samples of revenue transactions, recorded during the year by testing the underlying documents using statistical sampling.</li> <li>4. We carried out analytical procedures on revenue recognised during the year to identify unusual variances.</li> <li>5. We tested, on a sample basis, revenue transactions recorded before and after the financial year end date to determine whether the revenue had been recognised in the appropriate financial period.</li> <li>6. We tested manual journal entries posted to revenue to identify unusual items.</li> </ol>

**Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Standalone Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

**Related party transactions**

See note 8, note 15, note 39 and note 45 to the standalone financial statements

<b>The key audit matter</b>	<b>How the matter was addressed in our audit</b>
The Company has entered into several transactions with related parties during the year 2019-20. We identified related party transactions as a key audit matter because of risks with respect to completeness of disclosures made in the financial statements including recoverability thereof; compliance with statutory regulations governing related party relationships such as the Companies Act, 2013 and SEBI Regulations and the judgement involved in assessing whether transactions with related parties are undertaken at arms' length.	<p>In view of the significance of the matter we applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence:</p> <ol style="list-style-type: none"> <li>1. We carried out an assessment of the key controls to identify and disclose related party relationships and transactions in accordance with the relevant accounting standard.</li> <li>2. We carried out an assessment of compliance with the listing regulations and the regulations under the Companies Act, 2013, including checking of approvals/scrutiny as specified in Sections 177 and 188 of the Companies Act, 2013 with respect to the related party transactions. In cases where the matter was subject to interpretation, we exercised judgement to rely on opinions provided by legal practitioners.</li> <li>3. We considered the adequacy and appropriateness of the disclosures in the financial statements, including recoverability thereof, relating to the related party transactions.</li> <li>4. For transactions with related parties, we inspected relevant ledgers, agreements and other information that may indicate the existence of related party relationships or transactions. We also tested completeness of related parties with reference to the various registers maintained by the Company statutorily.</li> <li>5. We have tested on a sample basis, Company's assessment of related party transactions for arm's length pricing.</li> </ol>

**Litigations, provisions and contingencies**

See note 3(n), note 25, note 36, note 41 and note 49 to the standalone financial statements

<b>The key audit matter</b>	<b>How the matter was addressed in our audit</b>
The Company recognises a provision when it has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made. We have identified litigations, provisions and contingencies as a key audit matter because it requires the Company to make judgements and estimates in relation to the exposure arising out of litigations. The key judgement lies in the estimation of provisions where they may differ from the future obligations.	<p>In view of the significance of the matter we applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence:</p> <ol style="list-style-type: none"> <li>1. We tested the effectiveness of key controls around the recording and assessment of litigations, provisions and contingent liabilities.</li> <li>2. We used subject matter experts, wherever required to assess the value of the provisions and contingent liabilities in light of the nature of the exposures, applicable regulations and related correspondences with the authorities.</li> <li>3. Obtained Company's assessment of the open cases and compared the same to the assessment of subject matter experts, wherever necessary, to assess the reasonableness of the provision or contingency.</li> <li>4. Considered the adequacy of the Company's disclosures made in relation to related provisions and contingencies in the financial statements.</li> </ol>

**Other Information**

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### **Management's Responsibility for the Standalone Financial Statements**

The Company's management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors is also responsible for overseeing the Company's financial reporting process.

#### **Auditor's Responsibilities for the Audit of the Standalone Financial Statements**

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it

exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Report on Other Legal and Regulatory Requirements**

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
  - (A) As required by Section 143(3) of the Act, we report that:
    - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
    - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
    - c) The standalone balance sheet, the standalone statement of profit and loss (including other comprehensive income), the standalone statement of changes in equity and the standalone statement of cash flows dealt with by this Report are in agreement with the books of account.
    - d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.
    - e) On the basis of the written representations received from the directors as on 31 March 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2020 from being appointed as a director in terms of Section 164(2) of the Act.

f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

(B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations as at 31 March 2020 on its financial position in its standalone financial statements - Refer Note 36 to the standalone financial statements;
- ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
- iv. The disclosures in the standalone financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these financial statements since they do not pertain to the financial year ended 31 March 2020.

(c) With respect to the matter to be included in the Auditors' Report under Section 197(16):

In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

**ANNEXURE – A TO THE INDEPENDENT AUDITORS’ REPORT ON THE STANDALONE FINANCIAL STATEMENTS OF BRITANNIA INDUSTRIES LIMITED FOR THE YEAR ENDED 31 MARCH 2020**

With reference to the Annexure A referred to in paragraph 1 in Report on Other Legal and Regulatory Requirements of the Independent Auditor’s Report to the Members of the Company on the standalone financial statements for the year ended 31 March 2020, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The Company has a regular programme of physical verification of its fixed assets by which all fixed assets are verified in a phased manner over a period of three years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, certain fixed assets were physically verified during the year. No material discrepancies were observed on such verification.
- (c) In our opinion and according to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties included in property, plant and equipment are held in the name of the Company.  
In respect of immovable properties been taken on lease and disclosed as property, plant and equipment in the standalone financial statements, the lease agreements are in the name of the Company.
- (ii) The inventory, except goods-in-transit and stocks lying with third parties, have been physically verified by the Management during the year. In our opinion, the frequency of such verification is reasonable. The discrepancies noticed on verification between the physical stock and the book records were not material and have been appropriately dealt with in the books of accounts. For stocks lying with third parties at the year-end, written confirmations have been obtained by the Management.
- (iii) According to the information and explanations given to us, the Company has granted loans to three companies covered in the Register maintained under Section 189 of the Companies Act, 2013 (“the Act”).
  - (a) In our opinion, the rate of interest and other terms and conditions on which the loans had been granted to the companies and the other party listed in the Register maintained under Section 189 of the Act were not, *prima facie*, prejudicial to the interest of the Company.
  - (b) In the case of the loans granted to the companies and the other party listed in the Register maintained under Section 189 of the Act, the borrowers have been regular in the repayment of the principal and payment of interest, wherever stipulated.
  - (c) There are no overdue amounts in respect of loans granted to companies and the other party listed in the Register maintained under Section 189 of the Act.
  - (iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of Sections 185 and 186 of the Act, with respect to the loans given, investments made, guarantees and security given.
  - (v) The Company has not accepted any deposits from the public within the meaning the directives issued by the Reserve Bank of India, provisions of Sections 73 to 76 of the Act, any other relevant provisions of the Act and the relevant rules framed thereunder.
  - (vi) The Central Government has not prescribed the maintenance of cost records under Section 148(1) of the Act, for any of the products manufactured by the Company.
  - (vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Provident fund, Employees State Insurance, Income-tax, Duty of customs, Goods and Services tax, cess and any other material statutory dues have generally been regularly deposited during the year by the Company with the appropriate authorities. As explained to us, the Company did not have any dues on account of Sales-tax, Service-tax, Duty of excise and Value added tax during the year. Also refer note 36 to the standalone financial statements.  
According to the information and explanations given to us, no undisputed amounts payable in respect of Provident fund, Employees State Insurance, Income-tax, Duty of customs, Goods and Services tax, cess and any other material statutory dues were in arrears, as at 31 March 2020, for a period of more than six months from the date they became payable.

- (b) According to the information and explanations given to us, there are no dues which have not been deposited by the Company on account of disputes, except for the following:

Statute/ Nature of dues	Amount* (₹)	Period to which the amount relates	Forum where dispute is pending
Excise duty (including service tax)	26,778,056	1980-1989	High Court

## **ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT ON THE STANDALONE FINANCIAL STATEMENTS OF BRITANNIA INDUSTRIES LIMITED FOR THE YEAR ENDED 31 MARCH 2020**

**Report on the internal financial controls with reference to the aforesaid standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013**

(Referred to in paragraph 1(A)(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

### **Opinion**

We have audited the internal financial controls with reference to financial statements of Britannia Industries Limited ("the Company") as of 31 March 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2020, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

### **Management's Responsibility for Internal Financial Controls**

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

### **Meaning of Internal Financial controls with Reference to Financial Statements**

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial

statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial controls with Reference to Financial Statements**

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any

evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## NOTES TO STANDALONE FINANCIAL STATEMENTS

### **1 Reporting entity**

Britannia Industries Limited (the 'Company') is a company domiciled in India, with its registered office situated at 5/1A, Hungerford Street, Kolkata, West Bengal - 700017. The Company has been incorporated under the provisions of Indian Companies Act and its equity shares are listed on the National Stock Exchange (NSE) and the Bombay Stock Exchange (BSE) in India. The Company is primarily involved in manufacturing and sale of various food products.

### **2 Basis of preparation**

#### **A. Statement of compliance**

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules 2015, as amended, notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

The standalone financial statements were authorised for issue by the Company's Board of Directors on 2 June 2020. Details of the Company's accounting policies are included in Note 3.

#### **B. Functional and presentation currency**

These standalone financial statements are presented in Indian Rupees (₹), which is also the Company's functional currency. All amounts have been rounded-off to two decimal places to the nearest crores, unless otherwise indicated.

#### **C. Basis of measurement**

The standalone financial statements have been prepared on the historical cost basis except for the following items:

<b>Items</b>	<b>Measurement basis</b>
Certain financial assets and liabilities	Fair value
Share-based payments	Fair value
Net defined benefit asset/(liability)	Fair value of plan assets less present value of defined benefit obligations

#### **D. Use of estimates and judgements**

In preparing these standalone financial statements, the Company has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

#### **Judgements**

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the standalone financial statements is included in the following notes:

- Note 37 - leases: whether an arrangement contains a lease and lease classification

#### **Assumptions and estimation uncertainties**

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ending 31 March 2020 is included in the following notes:

- Note 46 - measurement of defined benefit obligations: key actuarial assumptions;
- Note 41 - recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources;
- Note 4 - useful life of property, plant and equipment
- Notes 7 to 9 and Notes 12,13,15 and 16 - impairment of financial assets.

## NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

### **E. Measurement of fair values**

Certain accounting policies and disclosures of the Company require the measurement of fair values, for both financial and non financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values.

The valuation team regularly reviews significant unobservable inputs and valuation adjustments.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

Further information about the assumptions made in the measuring fair values is included in the following notes:

- Note 5 - investment property
- Note 18 (d) - share-based payments
- Note 54 - financial instruments.

### **3. Significant accounting policies**

#### **(a) Property, plant and equipment**

##### *i. Recognition and measurement*

Items of property, plant and equipment, are measured at cost (which includes capitalised borrowing costs, if any) less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment includes its purchase price, duties, taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials, direct labour and any other costs directly attributable to bringing the item to its intended working condition and estimated costs of dismantling, removing and restoring the site on which it is located, wherever applicable.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in the Statement of Profit and Loss.

##### *ii. Subsequent expenditure*

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

## NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

---

### iii. *Depreciation*

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual value using straight line method over the useful lives of assets estimated by the Company based on an internal technical evaluation performed by the Company and is recognised in the Statement of Profit and Loss. Assets acquired under lease are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Company will obtain ownership by the end of the lease term. Depreciation for assets purchased / sold during the period is proportionately charged.

The range of estimated useful lives of items of property, plant and equipment are as follows:

<b>Asset</b>	<b>Useful life</b>
Plant and equipment	7.5 - 15 years
Furniture and fixtures	10 years
Motor vehicles	8 years
Office equipment	3 - 5 years
Buildings	30 - 60 years
Leasehold land	Lease period

Freehold land is not depreciated.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year-end and adjusted prospectively, if appropriate.

### iv. *Reclassification to investment property*

When the use of a property changes from owner-occupied to investment property, the property is reclassified as investment property at its carrying amount on the date of classification.

### v. *Capital work-in-progress*

Capital work-in-progress includes cost of property, plant and equipment under installation / under development as at the balance sheet date.

## (b) **Investment property**

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Upon initial recognition, an investment property is measured at cost. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses, if any.

The Company depreciates investment properties on a straight-line basis over the useful life of the asset as specified in the table above.

Any gain or loss on disposal of an investment property is recognised in the Statement of Profit and Loss.

The fair values of investment property is disclosed in the notes accompanying these financial statements. Fair values are determined by an independent valuer who holds recognised and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

## NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

**(c) Intangible assets**

Internally generated: Research and development

Expenditure on research activities is recognised in the Statement of Profit and Loss as incurred.

Development expenditure is capitalised as part of the cost of the resulting intangible asset only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete the development and to use or sell the asset. Otherwise, it is recognised in the Statement of Profit and Loss as incurred. Subsequent to initial recognition, the asset is measured at cost less accumulated amortisation and accumulated impairment losses, if any.

**Others**

Other intangible assets including those acquired by the Company in a business combination are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortisation and accumulated impairment losses, if any.

**Amortisation**

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values over their estimated useful lives using the straight-line method, and is included in depreciation and amortisation in Statement of Profit and Loss.

The estimated useful lives are as follows:

Asset	Useful life
Computer software	6 years

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

**(d) Impairment**

**(i) Financial assets**

The Company recognises loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through Statement of Profit and Loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognised as an impairment gain or loss in the Statement of Profit and Loss.

**(ii) Non-financial assets**

**Intangible assets and property, plant and equipment**

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generated units to which the asset belongs. If such assets are considered to be impaired, the

## NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

---

impairment to be recognised in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortisation or depreciation) had no impairment loss been recognised for the asset in prior years.

**(e) Leases**

Effective from 1 April 2019, the Company has applied Ind AS 116, which replaces the existing lease standard, Ind AS 17 Leases and other interpretations. The Company has applied Ind AS 116 using the modified retrospective approach and has accordingly not restated the comparative information. The Company at the inception of a contract, assesses whether a contract, is or contains a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Ind AS 116 introduces a single balance sheet lease accounting model for lessees. A lessee recognises a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. The Company has elected not to recognise right-of-use of assets and lease liabilities for short term leases that have a lease term of 12 months or less and leases of low value assets. The Company recognises the lease payments associated with these leases as an expense on a straight line basis over the lease term. Lessor accounting remains similar to the accounting under the previous standard i.e. lessor continues to classify leases as finance or operating lease. This policy is applied to contracts entered into, or changed, on or after 1 April 2019. For contracts entered into before 1 April 2019, the determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

*As a lessee*

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right of use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct cost incurred and an estimate of cost to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received. The right-of-use asset is subsequently depreciated using the straight line method from the commencement date to the earlier of the end of the useful life or the end of the lease term. The estimated useful life of the right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability. The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payment of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero. On the Balance Sheet, right-of-use assets have been included in property, plant and equipment and lease liabilities have been included in borrowings and other financial liabilities.

## NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

---

In the comparative period, leases of property, plant and equipment where the Company, as lessee, had substantially all the risks and rewards of ownership was classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. Leases in which a significant portion of the risks and rewards of ownership was not transferred to the Company as lessee was classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) was charged to profit or loss on a straight-line basis over the period of the lease unless the payments were structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

*As a lessor*

Lease income from operating leases, where the Company is a lessor, is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflation.

**(f) Inventories**

Inventories are valued at the lower of cost (including prime cost, non-refundable taxes and duties and other overheads incurred in bringing the inventories to their present location and condition) and estimated net realisable value, after providing for obsolescence, where appropriate. The comparison of cost and net realisable value is made on an item-by-item basis. The net realisable value of materials in process is determined with reference to the selling prices of related finished goods. Raw materials, packing materials and other supplies held for use in production of inventories are not written down below cost except in cases where material prices have declined, and it is estimated that the cost of the finished products will exceed their net realisable value.

The provision for inventory obsolescence is assessed regularly based on estimated usage and shelf life of products.

Raw materials, packing materials and stores and spares are valued at cost computed on moving weighted average basis. The cost includes purchase price, inward freight and other incidental expenses net of refundable duties, levies and taxes, where applicable.

Work-in-progress is valued at input material cost plus conversion cost as applicable.

Finished goods and stock-in-trade are valued at the lower of net realisable value and cost (including prime cost, non-refundable taxes and duties and other overheads incurred in bringing the inventories to their present location and condition), computed on a moving weighted average basis.

**(g) Financial instruments**

*i. Recognition and initial measurement*

The Company initially recognises financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are measured at fair value on initial recognition. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition.

*ii. Classification and subsequent measurement*

*Financial assets*

*Financial assets carried at amortised cost*

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the

---

financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

*Financial assets at fair value through other comprehensive income*

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

*Financial assets at fair value through profit or loss*

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

*Financial liabilities*

Financial liabilities are subsequently carried at amortised cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

*Investment in subsidiaries, joint venture and associates*

Investment in equity shares in subsidiaries, joint venture and associates is carried at cost in the financial statements.

**iii. *Derecognition***

*Financial assets*

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the right to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial assets are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

*Financial liabilities*

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and a new financial liability with modified terms is recognised in the Statement of Profit and Loss.

**iv. *Offsetting***

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or realise the asset and settle the liability simultaneously.

### (h) Revenue recognition

The Company recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. A 5-step approach is used to recognise revenue as below:

Step 1: Identify the contract(s) with a customer

Step 2: Identify the performance obligation in contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to the performance obligations in the contract

Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

#### (i) Sale of goods:

Revenue is recognised when a customer obtains control of the goods which is ordinarily upon delivery at the customer premises. Revenue is measured at fair value of the consideration received or receivable, after deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government which are levied on sales such as goods and services tax, etc. For certain contracts that permit the customer to return an item, revenue is recognised to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognised will not occur. As a consequence, for those contracts for which the Company is unable to make a reasonable estimate of return, revenue is recognised when the return period lapses or a reasonable estimate can be made. A refund liability and an asset for recovery is recognised for these contracts and presented separately in the balance sheet.

#### (ii) Deferred revenue:

The Company has a customer loyalty programme for selected customers. The Company grants credit points to those customers as part of a sales transaction which allows them to accumulate and redeem those credit points. The consideration is allocated between the loyalty programme and the goods based on their relative stand-alone selling prices. The credit points have been deferred and will be recognised as revenue when the reward points are redeemed or lapsed.

#### (iii) Income from royalties are recognised based on contractual agreements.

#### (iv) Dividend income is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

#### (v) For all financial instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR), which is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. Interest income is included in other income in the Statement of Profit and Loss.

### (i) Business combination

Business combinations arising from transfers of interest in entities that are under the control of the shareholder that controls the Company are accounted for as if the acquisition had occurred at the beginning of the earliest comparative period presented or, if later, at the date that common control was established; for this purpose comparatives are revised. The assets and liabilities acquired are recognised at their carrying amounts. The identity of the reserves is preserved and they appear in the financial statements of the Company in the same form in which they appeared in the financial statements of the acquired entity. The difference, if any, between the value of net assets and the consequent reduction in value of investment held by the Company is transferred to the capital reserve or to the accumulated balance of profit and loss.

**(j) Foreign currencies**

Transactions in foreign currencies are initially recorded by the Company at their functional currency spot rates at the date of the transaction. Monetary assets and liabilities denominated in foreign currency are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date are recognised as income or expenses in the period in which they arise. Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rates at the date of transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

**(k) Government grants**

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to revenue, it is recognised in the Statement of Profit and Loss on a systematic basis over the periods to which they relate. When the grant relates to an asset, it is treated as deferred income and recognised in the Statement of Profit and Loss on a systematic basis over the useful life of the asset.

**(l) Income tax**

Income tax comprises current and deferred tax. It is recognised in the Statement of Profit and Loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

*i. Current tax*

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

*ii. Deferred tax*

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of transaction.

- temporary differences related to investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used.

Deferred tax assets recognised or unrecognised are reviewed at each reporting date and are recognised / reduced to the extent that it is probable / no longer probable respectively that the related tax benefit will be realised.

## NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

---

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

The Company offsets, the current tax assets and liabilities (on a year on year basis) and deferred tax assets and liabilities, where it has a legally enforceable right and where it intends to settle such assets and liabilities on a net basis.

**(m) Borrowing costs**

Borrowing costs directly attributable to the acquisition or construction of those property, plant and equipment which necessarily takes a substantial period of time to get ready for their intended use are capitalised. All other borrowing costs are expensed in the period in which they incur in the Statement of Profit and Loss.

**(n) Provisions and contingent liabilities**

i. *General*

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the expense relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

ii. *Contingent liabilities*

A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made.

iii. *Onerous contracts*

Provision for onerous contracts. i.e. contracts where the expected unavoidable cost of meeting the obligations under the contract exceed the economic benefits expected to be received under it, are recognised when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of an obligating event based on a reliable estimate of such obligation.

**(o) Employee benefits**

i. *Short-term employee benefits*

All employee benefits falling due wholly within twelve months of rendering the services are classified as short-term employee benefits, which include benefits like salaries, wages, short-term compensated absences and performance incentives and are recognised as expenses in the period in which the employee renders the related service.

## NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

---

### **ii. Post-employment benefits**

Contributions to defined contribution schemes such as Provident Fund, Pension Fund, etc., are recognised as expenses in the period in which the employee renders the related service. In respect of certain employees, Provident Fund contributions are made to a Trust administered by the Company. The interest rate payable to the members of the Trust shall not be lower than the statutory rate of interest declared by the Central Government under the Employees' Provident Funds and Miscellaneous Provisions Act, 1952 and shortfall, if any, after considering the accumulated reserves with the Trust, shall be made good by the Company. To this extent, the Provident Fund scheme could be considered as a defined benefit plan. In respect of contributions made to government administered Provident Fund, the Company has no further obligations beyond its monthly contributions. The Company also provides for post-employment defined benefit in the form of gratuity and medical benefits. The cost of providing benefit is determined using the projected unit credit method, with actuarial valuation being carried out at each balance sheet date. Remeasurement of the net benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interests) and the effect of the assets ceiling (if any, excluding interest) are recognised in other comprehensive income. The effect of any plan amendments are recognised in net profit in the Statement of Profit and Loss.

The Britannia Industries Limited Covenanted Staff Pension Fund Trust ('BILCSPF') and Britannia Industries Limited Officers' Pension Fund Trust ('BILOPF') were established by the Company to administer pension schemes for its employees. These trusts are managed by the Trustees. The Pension Scheme is applicable to all the managers and officers of the Company who have been employed up to the date of 15 September 2005 and any manager or officer employed after that date, if he has opted for the membership of the Scheme. The Company makes a contribution of 15% of basic salary in respect of the members, each month to the trusts. On retirement, subject to the vesting conditions as per the rules of the trust, the member becomes eligible for pension, which is paid from annuity purchased in the name of the member by the trusts.

### **iii. Other long-term employee benefits**

All employee benefits (other than post-employment benefits and termination benefits) which do not fall due wholly within twelve months after the end of the period in which the employees render the related services are determined based on actuarial valuation or discounted present value method carried out at each balance sheet date. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary as at 1 January every year using projected unit credit method on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the balance sheet date. Expense on non-accumulating compensated absences is recognised in the period in which the absences occur.

### **iv. Voluntary retirement scheme benefits**

Voluntary retirement scheme benefits are recognised as an expense in the year they are incurred.

### **(p) Share-based payments**

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model. That cost is recognised in employee benefits expense, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled. The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

## **NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)**

---

**(q) Cash and cash equivalents**

Cash and cash equivalents includes cash on hand, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less.

**(r) Earnings per share**

Basic Earnings Per Share ('EPS') is computed by dividing the net profit attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the net profit by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the year, unless issued at a later date. In computing diluted earnings per share, only potential equity shares that are dilutive and that either reduces earnings per share or increases loss per share are included. The number of shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented in case of share splits.

**(s) Cash flow statement**

Cash flows are reported using indirect method, whereby net profits before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from regular revenue generating (operating activities), investing and financing activities of the Company are segregated.

**(t) Recent accounting pronouncements**

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from 1 April, 2020.

During the financial year 2008-09, the Company introduced Britannia Industries Limited Employee Stock Option Scheme ('the Scheme'). As per the Scheme, the Remuneration / Compensation Committee grants options to the employees and Executive Directors of the Company. The vesting period of the option is one to three years from the date of grant. Options granted under the Scheme can be exercised within a period of three years from the date of vesting.

Under the Scheme, the Company granted 15,000 options on 29 October 2008 at an exercise price of ₹1,125.30/-; 15,000 options on 27 May 2009 at an exercise price of ₹1,698.15/-; 20,000 options on 27 May 2010 at an exercise price of ₹1,668.55/-; 125,000 options on 27 May 2011 at an exercise price of ₹391.75/-; 100,000 options on 28 May 2012 at an exercise price of ₹528.75/-; 50,000 options on 26 May 2014 at an exercise price of ₹870.35/-; 75,000 options on 21 May 2015 at an exercise price of ₹2,332.05/-; 100,000 options on 30 June 2016 at an exercise price of ₹2,771.40/-; 125,000 options on 25 May 2017 at an exercise price of ₹3,533.30/-; 150,000 options on 15 May 2018 at an exercise price of ₹5,464.10/- and 350,000 options on 1 May 2019 at an exercise price of ₹2,896.05/- to the Managing Director of the Company. Each option represents one equity share of ₹10/- each (for options granted between the years 2008 to 2010) and one equity share of ₹2/- each (for options granted between the years 2010 to 2018) and one equity share of ₹1/- each (for options granted after the year 2018). The said price was determined in accordance with the pricing formula approved by the shareholders i.e. the latest available closing price, prior to the date of the meeting of the Board of Directors or Remuneration / Compensation Committee in which options were granted, on the stock exchange having higher trading volume.

## NOTES TO STANDALONE FINANCIAL STATEMENTS (CONTINUED)

Weighted average price per option outstanding at the end of the year (of ₹ 1 each)	2,700.62	2,262.07

### Fair Value Measurement:

The fair value at grant date is determined using the Black Scholes valuation option-pricing model which takes into account the exercise price, the term of the option, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option.

The key inputs used in Black-Scholes model for calculating fair value of options under the scheme as on the date of grant are as follows:

Particulars *	31 March 2020	31 March 2019
No. of options granted (of ₹ 1 each)	350,000	300,000
Date of grant	1-May-19	15-May-18
Vesting period (years)	1 to 3	1 to 3
Expected life of option (years)	3	3
Expected volatility	20.89%	22.12%
Risk free rate	7.03%	7.66%
Expected dividends expressed as a dividend yield	0.52%	0.46%
Weighted-average fair values of options per share (of ₹ 1 each)	678.56	687.58

\* Disclosure for 31 March 2019 have been made after giving effect to the share split.

- (e) In the Annual General Meeting held on 9 August 2010, the shareholders of the Company approved the sub-division of equity shares, where in each equity share with a face value of ₹ 10 was subdivided into 5 equity shares with a face value of ₹ 2 each. The effective date for the sub-division was 10 September 2010. Further, the Board of Directors at their meeting held on 23 August 2018 approved the sub-division of each equity share of face value of ₹ 2 fully paid up into 2 equity shares of face value of ₹ 1 each fully paid. The same was approved by the members on 15 October 2018 through postal ballot and e-voting. The effective date for the sub-division was 30 November 2018.

- (i) Contingent liabilities disclosed above represent possible obligations where possibility of cash outflow to settle the obligations is not remote.
- (ii) The above does not include non-quantifiable industrial disputes and other legal disputes pending before various judicial authorities [Also Refer note 41 and 49].
- (iii) The Supreme court of India in the month of February 2019 had passed a judgement relating to definition of wages under the Provident Fund Act, 1952. However, considering that there are numerous interpretative issues relating to this judgement and in the absence of reliable measurement of the provision for the earlier periods, the Company has made a provision for provident fund contribution pursuant to the judgement in the previous year. The Company will evaluate its position and update its provision, if required, on receiving further clarity on the subject. The Company does not expect any material impact of the same.

**(ii) Commitments:**

- (a) Estimated amount of contracts remaining to be executed on capital account and not provided for ₹ 134.64 (31 March 2019: ₹ 134.13).
- (b) The Company has furnished the following corporate guarantees:

### Note 49

During the year ended 31 March 2016, based on queries received from Securities Exchange Board of India ('SEBI'), the Company conducted a preliminary internal investigation and discovered certain irregularities by M/s Sharepro Services (India) Private Limited ('Sharepro'), the Company's erstwhile Registrar and Share Transfer Agent. Subsequently, the Company filed a criminal complaint against Sharepro and its employees. Pursuant to the directions issued by SEBI in its interim order dated 22 March 2016, the Company appointed an independent external agency to conduct an audit of the records and systems of Sharepro with respect to past transactions. The report of the external agency was submitted with SEBI by the Company vide its letter dated 12 July 2016. In the current year, following the receipt of a Show Cause Notice dated 8 November 2019 from SEBI in a related matter, the Company has filed a Settlement Application, which was considered and cleared by the Internal Committee of SEBI on 11 March 2020 for further approvals and is presently awaiting final Settlement orders from SEBI. The Company continues to evaluate additional steps, if any, based on the directions of SEBI or any other regulatory authorities.

Based on consultations with its legal counsel, the Company has been advised that the liability will not devolve on the Company and thus no provision is considered necessary. Further, the Company has a right to claim losses, if any, from Sharepro and accordingly the Company does not plan to make good the losses on its own account.

### Financial risk management

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's management risk policy is set by the Board. The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. A summary of the risks have been given below.

### Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and loans given. Credit risk arises from cash held with banks and financial institutions, as well as credit exposure to customers, including outstanding accounts receivables. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors. Based on our assessment and current estimates the carrying value and the provisions made as at 31 March 2020 is considered adequate.

### *Trade and other receivables*

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. The Company limits its exposure to credit risk from trade receivables by establishing appropriate credit period for customer. In monitoring customer credit risk, customers are grouped according to their credit characteristics, including whether they are wholesale, retail or institutional customers, their geographic location, industry, trading history with the Company and existence of previous financial difficulties. The default in collection as a percentage to total receivable is low.

The Company's exposure to credit risk for trade receivables by geographic region is as follows:

	Gross carrying amount	
	31 March 2020	31 March 2019
India	214.60	267.82
Others	29.43	89.78
	<b>244.03</b>	<b>357.60</b>

The Company's exposure to credit risk for trade receivables by type of counterparty is as follows:

	Gross carrying amount	
	31 March 2020	31 March 2019
Institutional	133.24	154.28
Authorised wholesaler	44.79	88.81
Exports	29.43	89.78

#### **Liquidity risk**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, that it will always have sufficient liquidity to meet its liabilities when due. The Company's corporate treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by the senior management.

The Company aims to maintain the level of its cash and cash equivalents and other highly marketable debt investments at an amount in excess of expected cash outflows on financial liabilities (other than trade payables) over the next six months. The Company also monitors the level of expected cash inflows on trade receivables and loans together with expected cash outflows on trade payables and other financial liabilities. At 31 March 2020, the expected cash flows from trade receivables is ₹ 242.23 (31 March 2019: ₹ 350.96). This excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

In addition, the Company maintains a line of credit of ₹ 675.60 (31 March 2019: ₹ 274) overdraft facility with various banks that is unsecured. Interest would be payable basis prevailing MCLR plus applicable margin (31 March 2019 : prevailing MCLR plus applicable margin).

The table below provides details regarding the contractual maturities of significant financial liabilities as at 31 March 2020 and 31 March 2019:

### Market risk

Market risk is the risk that changes in market prices - such as foreign exchange rates and interest rates - will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

#### *Currency risk*

The Company is exposed to currency risk to the extent that there is mismatch between the currencies in which sales, purchase are denominated and the respective functional currencies of Company. The Company has export sales (3% of total sales) primarily denominated in US dollars and Euro. At any point in time, the Company hedges 95% to 100% of its estimated foreign currency exposure in respect of sales and purchases over the following 12 months. The Company uses forward exchange contracts to hedge its currency risk, most with a maturity of less than one year from the reporting date.

#### **Exposure to currency risk**

The summary quantitative data about the Company's gross exposure to currency risk is as follows:

	31 March 2020		31 March 2019	
	Euro	USD	Euro	USD
Export receivables	-	0.38	-	1.25
Overseas payables	-	-	(0.20)	(0.10)

The Company uses forward exchange contracts to hedge the currency exposure and is therefore not exposed to significant currency risk at the respective reporting dates.

#### **Sensitivity analysis**

The impact of strengthening/weakening of currency on the Company is not material as Company hedges 95% to 100% of the foreign currency exposure.

#### **Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates. The Company's exposure to risk of changes in market interest rate is minimal.

#### **Sensitivity analysis**

The sensitivity analysis have been determined based on the exposure to interest rates for debt obligations with floating rates. The impact of movement in interest rate by 100 basis points higher or lower and considering all other variables constant, on the Company is not material.

#### **Impact of COVID-19**

The Company has considered the possible effects that may result from COVID-19 on the carrying amounts of financial assets, inventory, receivables, loans and advances, property plant and equipment, intangibles etc as well as liabilities accrued. In developing the assumptions relating to the possible future uncertainties in the economic conditions because of this pandemic, the Company has used internal and external information. Having reviewed the underlying data and based on current estimates, the Company does not expect any material impact on the carrying amount of these assets and liabilities. The impact of COVID-19 on the Company's financial statements may differ from that estimated as at the date of approval of these financial statements and the Company will continue to closely monitor any material changes to future economic conditions. The Company has also evaluated the impact of the same on the aforementioned risks i.e. credit risk, liquidity risk, market risk, currency risk and interest risk and does not foresee any material impact on account of the same.

## INDEPENDENT AUDITORS' REPORT

**To the Members of Britannia Industries Limited**  
**Report on the Audit of Consolidated Financial Statements**  
**Opinion**

We have audited the consolidated financial statements of Britannia Industries Limited (hereinafter referred to as the "Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group") and its associates, which comprise the consolidated balance sheet as at 31 March 2020, and the consolidated statement of profit and loss (including other comprehensive income), consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of other auditors on separate financial statements of such subsidiaries and associates as were audited by the other auditors, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group and its associates as at 31 March 2020, of its consolidated profit and other comprehensive income, consolidated changes in equity and consolidated cash flows for the year then ended.

**Revenue recognition**

**See note 3(i), note 31 and note 58 to the consolidated financial statements**

The key audit matter	How the matter was addressed in our audit
<p>The principal products of the Group comprise food products that are mainly sold through distributors, modern trade and direct sale channels amongst others. Revenue is recognised when the customer obtains control of the goods. We identified revenue recognition as a key audit matter because the Group and its external stakeholders focus on revenue as a key performance indicator. This could create an incentive for revenue to be overstated or recognised before control has been transferred.</p>	<p>In view of the significance of the matter we applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence:</p> <ol style="list-style-type: none"> <li>1. We assessed the appropriateness of the revenue recognition accounting policies by comparing with applicable accounting standards.</li> <li>2. We evaluated the design of key controls and operating effectiveness of the relevant key controls with respect to revenue recognition on selected transactions.</li> <li>3. We performed substantive testing by selecting samples of revenue transactions, recorded during the year by testing the underlying documents using statistical sampling.</li> <li>4. We carried out analytical procedures on revenue recognised during the year to identify unusual variances.</li> <li>5. We performed confirmation procedures on selected customer balances at the balance sheet date.</li> <li>6. We tested, on a sample basis, revenue transactions recorded before and after the financial year end date to determine whether the revenue had been recognised in the appropriate financial period.</li> <li>7. We tested manual journal entries posted to revenue to identify unusual items.</li> </ol>

**Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group and its associates in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence obtained by us along with the consideration of audit reports of the other auditors referred to in sub paragraph (a) of the "Other Matters" paragraph below, is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

**Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

**Related party transactions**

See note 9, note 16, note 41 and note 47 to the consolidated financial statements

<p>The Group has entered into several transactions with related parties during the year 2019-20. We identified related party transactions as a key audit matter because of risks with respect to completeness of disclosures made in the financial statements including recoverability thereof; compliance with statutory regulations governing related party relationships such as the Companies Act, 2013 and SEBI Regulations and the judgement involved in assessing whether transactions with related parties are undertaken at arms' length.</p>	<p>In view of the significance of the matter we applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence:</p> <ol style="list-style-type: none"> <li>1. We carried out an assessment of the key controls to identify and disclose related party relationships and transactions in accordance with the relevant accounting standard.</li> <li>2. We carried out an assessment of compliance with the listing regulations and the regulations under the Companies Act, 2013, including checking of approvals/scrutiny as specified in Sections 177 and 188 of the Companies Act, 2013 with respect to the related party transactions. In cases where the matter was subject to interpretation, we exercised judgement to rely on opinions provided by legal practitioners.</li> <li>3. We considered the adequacy and appropriateness of the disclosures in the financial statements, including recoverability thereof relating to the related party transactions.</li> <li>4. For transactions with related parties, we inspected relevant ledgers, agreements and other information that may indicate the existence of related party relationships or transactions. We also tested completeness of related parties with reference to the various registers maintained by the Group statutorily.</li> <li>5. We have tested on a sample basis, Group's assessment of related party transactions for arm's length pricing.</li> </ol>
--	--

**Litigations, provisions and contingencies**

See note 3(o), note 30, note 38, note 42 and note 55 to the consolidated financial statements

The key audit matter	How the matter was addressed in our audit
<p>The Group recognises a provision when it has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made. We have identified litigations, provisions and contingencies as a key audit matter because it requires the Group to make judgements and estimates in relation to the exposure arising out of litigations. The key judgement lies in the estimation of provisions where they may differ from the future obligations.</p>	<p>In view of the significance of the matter we applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence:</p> <ol style="list-style-type: none"> <li>1. We tested the effectiveness of key controls around the recording and assessment of litigations, provisions and contingent liabilities.</li> <li>2. We used subject matter experts, wherever required to assess the value of the provisions and contingent liabilities in light of the nature of the exposures, applicable regulations and related correspondences with the authorities.</li> <li>3. Obtained Group's assessment of the open cases and compared the same to the assessment of subject matter experts, wherever necessary, to assess the reasonableness of the provision or contingency.</li> <li>4. Considered the adequacy of the Group's disclosures made in relation to related provisions and contingencies in the financial statements.</li> </ol>

## Other Information

The Holding Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Holding Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed and based on the work done/ audit report of other auditors, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Management's and Board of Directors' Responsibilities for the Consolidated Financial Statements

The Holding Company's Management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated profit / loss and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group including its associates in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. The respective Management and Board of Directors of the companies included in the Group and of its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group and of its associates are responsible for assessing the ability of each company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates is responsible for overseeing the financial reporting process of each company.

### Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on the internal financial controls with reference to the consolidated financial statements and the operating effectiveness of such controls based on our audit.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of Management and Board of Directors use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of such entities or business activities within the Group and its associates to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial information of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in para (a) of the section titled 'Other Matters' in this audit report.

We believe that the audit evidence obtained by us along with the consideration of audit reports of the other auditors referred to in sub-paragraph (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters.

We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Other Matters**

- (a) We did not audit the financial statements / financial information of seven subsidiaries, whose financial statements/financial information reflect total assets of ₹ 867.21 crores as at 31 March 2020, total revenues of ₹ 563.49 crores and net cash inflows amounting to ₹ 10.39 crores for the year ended on that date, as considered in the consolidated financial statements. These subsidiaries are located outside India whose financial statements / financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Company's management has converted the financial statements / financial information of such subsidiaries located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Company's management.

- Our opinion, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries is based solely on the audit reports of the other auditors and the conversion adjustments prepared by the management of the Company and audited by us.
- (b) The financial statements/financial information of two subsidiaries, whose financial statements/financial information reflect total assets of ₹ 0.01 crores as at 31 March 2020, total revenues of ₹ Nil and net cash outflows amounting to ₹ 0.33 crores for the year ended on that date, as considered in the consolidated financial statements, have not been audited either by us or by other auditors. The consolidated financial statements also include the Group's share of net profit (and other comprehensive income) of ₹ 0.44 crores for the year ended 31 March 2020, as considered in the consolidated financial statements, in respect of three associates, whose financial statements/financial information have not been audited by us or by other auditors. These unaudited financial statements/financial information have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and associates, and our report in terms of sub-sections (3) of Section 143 of the Act in so far as it relates to the aforesaid subsidiaries and associates, is based solely on such unaudited financial statements / financial information. In our opinion and according to the information and explanations given to us by the Management, these financial statements/financial information are not material to the Group.
- Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements/financial information certified by the Management.
- Report on Other Legal and Regulatory Requirements**
- A. As required by Section 143(3) of the Act, based on our audit and on the consideration of reports of the other auditors on separate financial statements of such subsidiaries and associates as were audited by other auditors, as noted in the 'Other Matters' paragraph, we report, to the extent applicable, that:
- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
  - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
  - c) The consolidated balance sheet, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated statement of cash flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
  - d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act.
  - e) On the basis of the written representations received from the directors of the Holding Company as on 31 March 2020 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies incorporated in India, none of the directors of the Group companies incorporated in India is disqualified as on 31 March 2020 from being appointed as a director in terms of Section 164(2) of the Act.
  - f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company, its subsidiary companies and associate companies incorporated in India and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
- B. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on

the consideration of the reports of the other auditors on separate financial statements of the subsidiaries, as noted in the 'Other Matters' paragraph:

- i) The consolidated financial statements disclose the impact of pending litigations as at 31 March 2020 on the consolidated financial position of the Group and its associates. Refer Note 38 to the consolidated financial statements.
- ii) The Group and its associates did not have any material foreseeable losses on long-term contracts including derivative contracts during the year ended 31 March 2020.
- iii) There has been no delay in transferring amounts to the Investor Education and Protection Fund by the Holding Company during the year ended 31 March 2020. There are no amounts which are required to be transferred to the Investment Education and Protection Funds by its subsidiary companies and associate companies incorporated in India during the year ended 31 March 2020.
- iv) The disclosures in the consolidated financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in the financial statements since they do not pertain to the financial year ended 31 March 2020.

C. With respect to the matter to be included in the Auditor's Report under Section 197(16):

In our opinion and according to the information and explanations given to us, the remuneration paid during the current year by the Holding Company, its subsidiary companies and associate companies to its directors is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director by the Holding Company, its subsidiary companies, and associate companies is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

## **ANNEXURE A TO THE INDEPENDENT AUDITORS' REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS OF BRITANNIA INDUSTRIES LIMITED FOR THE YEAR ENDED 31 MARCH 2020**

**Report on the internal financial controls with reference to the aforesaid consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013**

(Referred to in paragraph A(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

### **Opinion**

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31 March 2020, we have audited the internal financial controls with reference to consolidated financial statements of Britannia Industries Limited (hereinafter referred to as "the Holding Company") and such companies incorporated in India under the Companies Act, 2013 which are its subsidiary companies and its associate companies as of that date.

In our opinion, the Holding Company and such companies incorporated in India which are its subsidiary companies and its associate companies, have, in all material respects, adequate internal financial controls with reference to consolidated financial statements and such internal financial controls were operating effectively as at 31 March 2020, based on the internal financial controls with reference to consolidated financial statements criteria established by such companies considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

### **Management's Responsibility for Internal Financial Controls**

The respective Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on the criteria established by the respective Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors,

the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

### **Auditors' Responsibility**

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal controls based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

### **Meaning of Internal Financial controls with Reference to Consolidated Financial Statements**

A company's internal financial controls with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial

controls with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial controls with Reference to the consolidated Financial Statements**

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements

due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### **1 Reporting entity**

Britannia Industries Limited (the ‘Company’) is a company domiciled in India, with its registered office situated at 5/1A, Hungerford Street, Kolkata, West Bengal - 700017. The Company has been incorporated under the provisions of Indian Companies Act and its equity shares are listed on the National Stock Exchange (NSE) and the Bombay Stock Exchange (BSE) in India. These consolidated financial statements comprise the Company and its subsidiaries (referred to collectively as the ‘Group’) and the Group’s interest in associates. The Group is primarily involved in manufacturing and sale of various food products.

### **2 Basis of preparation**

#### **A. Statement of compliance**

These consolidated financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015, as amended, notified under Section 133 of Companies Act, 2013, (the ‘Act’) and other relevant provisions of the Act.

The consolidated financial statements were authorised for issue by the Company’s Board of Directors on 2 June 2020.

Details of the Group’s accounting policies are included in Note 3.

#### **B. Functional and presentation currency**

These consolidated financial statements are presented in Indian Rupees (₹), which is also the Company’s functional currency. All amounts have been rounded-off to two decimal places to the nearest crores, unless otherwise indicated.

#### **C. Basis of measurement**

These consolidated financial statements have been prepared on the historical cost basis except for the following items:

<b>Items</b>	<b>Measurement basis</b>
Certain financial assets and liabilities	Fair value
Share based payments	Fair value
Net defined benefit asset/ (liability)	Fair value of plan assets less present value of defined benefit obligations

#### **D. Use of estimates and judgments**

In preparing these consolidated financial statements, the Group has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

#### **Judgements**

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in these consolidated financial statements is included in the following notes:

- Note 39 - leases: whether an arrangement contains a lease and lease classification.

#### **Assumptions and estimation uncertainties**

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ending 31 March 2020 is included in the following notes:

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

- Note 48 - measurement of defined benefit obligations: key actuarial assumptions;
- Note 42 - recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources;
- Note 4 - useful life of property, plant and equipment;
- Notes - 8-10 and Notes - 13,14,16 and 17 - impairment of financial assets.

### **E. Measurement of fair values**

Certain accounting policies and disclosures of the Group require the measurement of fair values, for both financial and non financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values.

The valuation team regularly reviews significant unobservable inputs and valuation adjustments.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

Further information about the assumptions made in the measuring fair values is included in the following notes:

- Note 5 - investment property;
- Note 20 (d) - share-based payment; and
- Note 54 - financial instruments.

### **3. Significant accounting policies**

#### **(a) Basis of consolidation**

##### **i. Subsidiaries**

Subsidiaries are all the entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which the control is transferred to the Group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group.

The Group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

**ii. Non - controlling interests (NCI)**

NCI are measured at their proportionate share of the acquiree's net identifiable assets on the date of acquisition.

**iii. Associates**

These are entities over which the group has significant influence but not control or joint control over the financial and operating policies.

Interests in associates are accounted using the equity method. They are initially recognised at cost which includes transaction cost. Subsequent to initial recognition, the consolidated financial statements include the Group's share of profit or loss and other comprehensive income of equity accounted investees until the date on which significant influence ceases.

**iv. Equity method**

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in profit and loss, and the Group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

**v. Transactions eliminated on consolidation**

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated. Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

**vi. Subsidiaries and associate companies considered in the consolidated financial statements:**

(b) **Property, plant and equipment**

i. *Recognition and measurement*

Items of property, plant and equipment are measured at cost (which includes capitalised borrowing costs, if any) less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment includes its purchase price, duties, taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials, direct labour and any other costs directly attributable to bringing the item to its intended working condition and estimated costs of dismantling, removing and restoring the site on which it is located, wherever applicable.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in the Statement of Profit or Loss.

**ii. Subsequent expenditure**

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

**iii. Depreciation**

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual value using straight line method over the useful lives of assets estimated by the Group based on an internal technical evaluation performed by the Group and is recognised in the Statement of Profit and Loss. Assets acquired under lease are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term. Depreciation for assets purchased / sold during the period is proportionately charged.

The range of estimated useful lives of items of property, plant and equipment are as follows:

<b>Asset</b>	<b>Useful life</b>
Plant and equipment	7.5 - 15 years
Furniture and fixtures	10 years
Motor vehicles	8 years
Office equipment	3 - 5 years
Buildings	30 - 60 years
Leasehold land	Lease period

Freehold land is not depreciated.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year-end and adjusted prospectively, if appropriate.

**iv. Reclassification to investment property**

When the use of a property changes from owner-occupied to investment property, the property is reclassified as investment property at its carrying amount on the date of classification.

**v. Capital work-in-progress**

Capital work-in-progress includes cost of property, plant and equipment under installation / under development as at the balance sheet date.

**(c) Intangible assets**

Internally generated: Research and development

Expenditure on research activities is recognised in the Statement of Profit and Loss as incurred.

Development expenditure is capitalised as part of the cost of the resulting intangible asset only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Group intends to and has sufficient resources to complete the development and to use or sell the asset. Otherwise, it is recognised in the Statement of Profit or Loss as incurred. Subsequent to initial recognition, the asset is measured at cost less accumulated amortisation and accumulated impairment losses, if any.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Others:

Other intangible assets including those acquired by the Group in a business combination are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortisation and accumulated impairment losses, if any.

Goodwill arising on consolidation represents the excess of cost to the Group of its investment in a subsidiary company over the Group's portion of net worth of the subsidiary, and is net of capital reserve.

**Amortisation**

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values over their estimated useful lives using the straight-line method, and is included in depreciation and amortisation in the Statement of Profit and Loss.

The estimated useful lives are as follows:

<b>Asset</b>	<b>Useful life</b>
Computer software	6 years

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

**(d) Investment property**

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Upon initial recognition, an investment property is measured at cost. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses, if any.

The Group depreciates investment properties on a straight-line basis over the useful life of the asset as specified in point b (iii) above.

Any gain or loss on disposal of an investment property is recognised in the Statement of Profit or Loss.

The fair values of investment property is disclosed in the notes accompanying these consolidated financial statements. Fair values are determined by an independent valuer who holds recognised and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

**(e) Impairment**

i) **Financial assets**

The Group recognises loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognised as an impairment gain or loss in the Statement of Profit or Loss.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

### (ii) Non-financial assets

#### Intangible assets and property, plant and equipment

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generated units to which the asset belongs. If such assets are considered to be impaired, the impairment to be recognised in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortisation or depreciation) had no impairment loss been recognised for the asset in prior years.

### (f) Leases

Effective from 1 April 2019, the Group has applied Ind AS 116, which replaces the existing lease standard, Ind AS 17-Leases and other interpretations. The Group has applied Ind AS 116 using the modified retrospective approach and has accordingly not restated the comparative information. The Group at the inception of a contract, assesses whether the a contract, is or contains a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Ind AS 116 introduces a single balance sheet lease accounting model for lessees. A lessee recognises a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. The Group has elected not to recognise right-of-use of assets and lease liabilities for short term leases that have a lease term of 12 months or less and leases of low value assets. The Group recognises the lease payments associated with these leases as an expense on a straight line basis over the lease term. Lessor accounting remains similar to the accounting under the previous standard i.e. lessor continues to classify leases as finance or operating lease. This policy is applied to contracts entered into, or changed, on or after 1 April 2019. For contracts entered into before 1 April 2019, the determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

#### *As a lessee*

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right of use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct cost incurred and an estimate of cost to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received. The right-of-use asset is subsequently depreciated using the straight line method from the commencement date to the earlier of the end of the useful life or the end of the lease term. The estimated useful life of the right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability. The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. The lease payments shall include fixed payments, variable

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

lease payments, residual value guarantees, exercise price of a purchase option where the Group is reasonably certain to exercise that option and payment of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or the Statement of the Profit and Loss if the right-of-use asset is already reduced to zero. On the Balance Sheet, right-of-use assets have been included in property, plant and equipment and lease liabilities have been included in borrowings and other financial liabilities. In the comparative period, leases of property, plant and equipment where the Group, as lessee, had substantially all the risks and rewards of ownership was classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, was included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost was charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. Leases in which a significant portion of the risks and rewards of ownership was not transferred to the Group as lessee was classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) was charged to profit or loss on a straight-line basis over the period of the lease unless the payments were structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

*As a lessor*

Lease income from operating leases, where the Group is a lessor, is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflation.

**(g) Inventories**

Inventories are valued at the lower of cost (including prime cost, non-refundable taxes and duties and other overheads incurred in bringing the inventories to their present location and condition) and estimated net realisable value, after providing for obsolescence, where appropriate. The comparison of cost and net realisable value is made on an item-by-item basis. The net realisable value of materials in process is determined with reference to the selling prices of related finished goods. Raw materials, packing materials and other supplies held for use in production of inventories are not written down below cost except in cases where material prices have declined, and it is estimated that the cost of the finished products will exceed their net realisable value.

The provision for inventory obsolescence is assessed regularly based on estimated usage and shelf life of products.

Raw materials, packing materials and stores and spares are valued at cost computed on moving weighted average basis. The cost includes purchase price, inward freight and other incidental expenses net of refundable duties, levies and taxes, where applicable.

Work-in-progress is valued at input material cost plus conversion cost as applicable.

Finished goods and stock-in-trade are valued at the lower of net realisable value and cost (including prime cost, non-refundable taxes and duties and other overheads incurred in bringing the inventories to their present location and condition), computed on a moving weighted average basis.

In respect of the following subsidiary, inventories are valued at cost, computed under first-in-first-out basis. The value of the inventories are as given below:

	₹ in Crores	31 March 2020	31 March 2019
Britannia Dairy Private Limited		19.01	16.23

### (h) Financial instruments

#### i. *Recognition and initial measurement*

The Group initially recognises financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are measured at fair value on initial recognition. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition.

#### ii. *Classification and subsequent measurement*

##### **Financial assets**

###### *Financial assets carried at amortised cost*

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

###### *Financial assets at fair value through other comprehensive income*

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

###### *Financial assets at fair value through profit or loss*

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

##### **Financial liabilities**

Financial liabilities are subsequently carried at amortised cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the nature of these instruments.

##### *Investment in associates and joint venture*

Investment in equity shares / preference shares in joint venture and associates is carried at cost in the financial statements.

#### iii. *Derecognition*

##### *Financial assets*

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the right to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial assets are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Group enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

### *Financial liabilities*

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Group also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and a new financial liability with modified terms is recognised in the Statement of Profit and Loss.

#### iv. *Offsetting*

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Group has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or realise the asset and settle the liability simultaneously.

#### (i) **Revenue recognition**

The Group recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. A 5-step approach is used to recognise revenue as below:

Step 1: Identify the contract(s) with a customer

Step 2: Identify the performance obligation in contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to the performance obligations in the contract

Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

##### (i) Sale of goods:

Revenue is recognised when a customer obtains control of the goods which is ordinarily upon delivery at the customer premises. Revenue is measured at fair value of the consideration received or receivable, after deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government which are levied on sales such as goods and services tax, etc. For certain contracts that permit the customer to return an item, revenue is recognised to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognised will not occur. As a consequence, for those contracts for which the Group is unable to make a reasonable estimate of return, revenue is recognised when the return period lapses or a reasonable estimate can be made. A refund liability and an asset for recovery is recognised for these contracts and presented separately in the balance sheet.

##### (ii) Deferred revenue:

The Group has a customer loyalty programme for selected customers. The Group grants credit points to those customers as part of a sales transaction which allows them to accumulate and redeem those credit points. The consideration is allocated between the loyalty programme and the goods based on their relative stand-alone selling prices. The credit points have been deferred and will be recognised as revenue when the reward points are redeemed or lapsed.

##### (iii) Income from royalties are recognised based on contractual agreements.

##### (iv) Dividend income is recognised when the Group's right to receive the payment is established, which is generally when shareholders approve the dividend.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

- (v) For all financial instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR), which is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. Interest income is included in other income in the Statement of Profit and Loss.

**(j) Foreign currencies**

Transactions in foreign currencies are initially recorded by the Group at their functional currency spot rates at the date of the transaction. Monetary assets and liabilities denominated in foreign currency are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date are recognised as income or expenses in the period in which they arise. Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rates at the date of transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

**(k) Foreign operations**

The assets and liabilities of foreign operations including goodwill and fair value adjustments arising on acquisition, are translated into ₹, the functional currency of the Company, at the exchange rates on the reporting date. The income and expenses of foreign operations are translated into ₹ at the exchange rates at the dates of the transactions or an average rate if the average approximates the actual rate at the date of the transaction.

When a foreign operation is disposed of in its entirety or partially, such that control, significant influence or joint control is lost, the cumulative amount of exchange differences related to that foreign operation recognised in OCI is reclassified to profit or loss as part of the gain or loss on disposal. If the Group disposes off part of its interest in a subsidiary but retains control, then the relevant proportion of the cumulative amount is re-allocated to OCI. When the Group disposes off only a part of its interest in an associate while retaining significant influence, the relevant proportion of the cumulative amount is reclassified to Statement of Profit or Loss.

**(l) Government grants**

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to revenue, it is recognised in the Statement of Profit and Loss on a systematic basis over the periods to which it relates. When the grant relates to an asset, it is treated as deferred income and recognised in the Statement of Profit and Loss on a systematic basis over the useful life of the asset.

**(m) Income tax**

Income tax comprises current and deferred tax. It is recognised in the Statement of Profit or Loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

*i. Current tax*

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

### ii. *Deferred tax*

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of transaction.
- temporary differences related to investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used.

Deferred tax assets recognised or unrecognised are reviewed at each reporting date and are recognised / reduced to the extent that it is probable / no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

The Group offsets, the current tax assets and liabilities (on a year on year basis) and deferred tax assets and liabilities, where it has a legally enforceable right and where it intends to settle such assets and liabilities on a net basis.

Minimum Alternate Tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the respective Group Company will pay normal income tax during the specified period. Such asset is reviewed at each balance sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the company will pay normal income tax during the specified period.

### (n) **Borrowing costs**

Borrowing costs directly attributable to the acquisition or construction of those property, plant and equipment, which necessarily takes a substantial period of time to get ready for their intended use are capitalised. All other borrowing costs are expensed in the period in which they incur in the Statement of Profit and Loss.

### (o) **Provisions and contingent liabilities**

#### i. *General*

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, the expense relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

---

**ii. Contingent liabilities**

A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made.

**iii. Onerous contracts**

Provision for onerous contracts. i.e. contracts where the expected unavoidable cost of meeting the obligations under the contract exceed the economic benefits expected to be received under it, are recognised when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of an obligating event based on a reliable estimate of such obligation.

**(p) Employee benefits**

**i. Short-term employee benefits**

All employee benefits falling due wholly within twelve months of rendering the services are classified as short-term employee benefits, which include benefits like salaries, wages, short-term compensated absences and performance incentives and are recognised as expenses in the period in which the employee renders the related service.

**ii. Post-employment benefits**

Contributions to defined contribution schemes such as Provident Fund, Pension Fund, etc., are recognised as expenses in the period in which the employee renders the related service. In respect of certain employees, Provident Fund contributions are made to a Trust administered by the Group. The interest rate payable to the members of the Trust shall not be lower than the statutory rate of interest declared by the Central Government under the Employees' Provident Funds and Miscellaneous Provisions Act, 1952 and shortfall, if any, after considering the accumulated reserves with the Trust, shall be made good by the Group. In respect of contributions made to government administered Provident Fund, the Group has no further obligations beyond its monthly contributions. The Group also provides for post-employment defined benefit in the form of gratuity and medical benefits. The cost of providing benefit is determined using the projected unit credit method, with actuarial valuation being carried out at each balance sheet date. Remeasurement of the net benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interests) and the effect of the assets ceiling (if any, excluding interest) are recognised in other comprehensive income. The effect of any plan amendments are recognized in the Statement of Profit and Loss.

The Britannia Industries Limited Covenanted Staff Pension Fund Trust ('BILCSPF') and Britannia Industries Limited Officers' Pension Fund Trust ('BILOPF') were established by the Group to administer pension schemes for its employees. These trusts are managed by the Trustees. The Pension Scheme is applicable to all the managers and officers of the Group who have been employed up to the date of 15 September 2005 and any manager or officer employed after that date, if he has opted for the membership of the Scheme. The Group makes a contribution of 15% of basic salary in respect of the members, each month to the trusts. On retirement, subject to the vesting conditions as per the rules of the trust, the member becomes eligible for pension, which is paid from annuity purchased in the name of the member by the trusts.

**iii. Other long-term employee benefits**

All employee benefits (other than post-employment benefits and termination benefits) which do not fall due wholly within twelve months after the end of the period in which the employees render the related services are determined based on actuarial valuation or discounted present value method carried out at each balance sheet date. The expected cost of accumulating compensated absences is determined by

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

---

actuarial valuation performed by an independent actuary as at 1 January every year using projected unit credit method on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the balance sheet date. Expense on non-accumulating compensated absences is recognised in the period in which the absences occur.

**iv. Voluntary retirement scheme benefits**

Voluntary retirement scheme benefits are recognised as an expense in the year they are incurred.

**(q) Share-based payments**

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model. That cost is recognised in employee benefits expense, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled. The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

**(r) Cash and cash equivalents**

Cash and cash equivalents includes cash on hand, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less.

**(s) Earnings per share**

Basic Earnings Per Share ('EPS') is computed by dividing the net profit attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the net profit by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the year, unless issued at a later date. In computing diluted earnings per share, only potential equity shares that are dilutive and that either reduces earnings per share or increases loss per share are included. The number of shares and potentially dilutive equity shares are adjusted retrospectively for all period in case of share splits.

**(t) Cash flow statement**

Cash flows are reported using indirect method, whereby net profits before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from regular revenue generating (operating activities), investing and financing activities of the Group are segregated.

**(u) Recent accounting pronouncements**

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2020.

Following key assumptions were considered while performing impairment testing:

Weighted Average Cost of Capital % (WACC) before tax	8.80%
Average sale value growth	5%
Average gross margin growth	48% to 50%

The projections cover a period of five years as this is believed to be the most appropriate time scale over which to review and consider annual performances before applying a fixed terminal value multiple to the final year cash flows.

The growth rates used to estimate future performance are based on conservative estimates from past performance.

### (d) Share based payments

During the financial year 2008-09, the Company introduced Britannia Industries Limited Employee Stock Option Scheme ('the Scheme'). As per the Scheme, the Remuneration / Compensation Committee grants options to the employees and Executive Directors of the Company. The vesting period of the option is one to three years from the date of grant. Options granted under the Scheme can be exercised within a period of three years from the date of vesting.

Under the Scheme, the Company granted 15,000 options on 29 October 2008 at an exercise price of ₹ 1,125.30/-; 15,000 options on 27 May 2009 at an exercise price of ₹ 1,698.15/-; 20,000 options on 27 May 2010 at an exercise price of ₹ 1,668.55/-; 125,000 options on 27 May 2011 at an exercise price of ₹ 391.75/-; 100,000 options on 28 May 2012 at an exercise price of ₹ 528.75/-; 50,000 options on 26 May 2014 at an exercise price of ₹ 870.35/-, 75,000 options on 21 May 2015 at an exercise price of ₹ 2,332.05/-, 100,000 options on 30 June 2016 at an exercise price of ₹ 2,771.40/-, 125,000 options on 25 May 2017 at an exercise price of ₹ 3,533.30/- and 150,000 options on 15 May 2018 at an exercise price of ₹ 5,464.10/- and 350,000 options on 1 May 2019 at an exercise price of ₹ 2,896.05/- to the Managing Director of the Company. Each option represents one equity share of ₹ 10/- each (for options granted between the years 2008 to 2010) and one equity share of ₹ 2/- each (for options granted between the years 2010 to 2018) and one equity share of ₹ 1/- each (for options granted after the year 2018). The said price was determined in accordance with the pricing formula approved by the shareholders i.e. the latest available closing price, prior to the date of the meeting of the Board of Directors or Remuneration / Compensation Committee in which options were granted, on the stock exchange having higher trading volume.

Exercise prices as stated above were adjusted downwards by ₹ 170/- per share for options granted on 29 October 2008 and 27 May 2009, being the face value of bonus debentures issued pursuant to the Scheme of Arrangement approved by the Honourable Calcutta High Court on 11 February 2010.

The number of options have been appropriately adjusted, consequent upon the sub-division of the equity shares [Refer note (e) below].

#### Movement in the options under the scheme: \*

	31 March 2020	31 March 2019
Options outstanding at the beginning of the year (of ₹ 1 each)	533,336	433,334
Options granted during the year (of ₹ 1 each)	350,000	300,000
Options vested during the year (of ₹ 1 each)	250,002	199,998
Options exercised during the year (of ₹ 1 each)	150,002	199,998

  - (b) Bank guarantee and letter of credit for ₹ 48.90 (31 March 2019: ₹ 72.31).
- Notes:**
  - (i) Contingent liabilities disclosed above represent possible obligations where possibility of cash outflow to settle the obligations is not remote.
  - (ii) The above does not include non-quantifiable industrial disputes and other legal disputes pending before various judicial authorities [Also refer note 42 and 55].
  - (iii) The Supreme court of India in the month of February 2019 had passed a judgement relating to definition of wages under the Provident Fund Act, 1952. However, considering that there are numerous interpretative issues relating to this judgement and in the absence of reliable measurement of the provision for the earlier periods, the Company had made a provision for provident fund contribution pursuant to the judgement in the previous year. The Company will evaluate its position and update its provision, if required, on receiving further clarity on the subject. The Company does not expect any material impact of the same.
- (ii) **Commitments:**
  - (a) Estimated amount of contracts remaining to be executed on capital account and not provided for ₹ 135.70 (31 March 2019: ₹ 138.63).

**Note 39 (a) Short term leases**

- (i) The Group has certain operating leases for office facilities and residential premises (short term leases). Such leases are generally with the option of renewal against increased rent and premature termination of agreement on mutual consent of both the parties. Rental expenses of ₹ 10.22 (31 March 2019: ₹ 9.51) in respect of obligation under operating leases have been recognised in the Statement of Profit and Loss.
- (ii) The Group has certain cancellable arrangements with contract packers (short term leases) identified to be in the nature of lease and have been classified as operating lease arrangements. Rental expenses of ₹ 23.83 (31 March 2019: ₹ 26.94) in respect of obligation under operating leases have been recognised in the Statement of Profit and Loss.

**(b) Leases liabilities**

- (i) The Group has taken motor vehicles under lease. Also the Group has taken certain land on lease for factory and office premises purposes and liability towards these leases are classified as lease liabilities. The total minimum lease payments and present value of minimum lease payments are as follows:

	As at			
	31 March 2020		31 March 2019	
	Minimum lease payments	Present value of minimum lease payments	Minimum lease payments	Present value of minimum lease payments
Not later than 1 year	2.69	2.38	0.34	0.27

### **Financial risk management**

The Group's financial risk management is an integral part of how to plan and execute its business strategies. The Group's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. The Group's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. A summary of the risks have been given below.

#### **Credit risk**

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and loans given. Credit risk arises from cash held with banks and financial institutions, as well as credit exposure to clients, including outstanding accounts receivables. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Group assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors. Based on our assessment and current estimates the carrying value and the provisions made as at 31 March 2020 is considered adequate.

#### *Trade and other receivables*

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. The Group limits its exposure to credit risk from trade receivables by establishing appropriate credit period for customer. In monitoring customer credit risk, customers are grouped according to their credit characteristics, including whether they are wholesale, retail or institutional customers, their geographic location, industry, trading history with the Group and existence of previous financial difficulties. The default in collection as a percentage to total receivable is low.

The Group's exposure to credit risk for trade receivables by geographic region is as follows:

	<b>Carrying amount</b>	
	<b>31 March 2020</b>	<b>31 March 2019</b>
India	235.06	259.91
Others	87.48	141.35
	<b>322.54</b>	<b>401.26</b>

The Group's exposure to credit risk for trade receivables by type of counterparty is as follows:

	<b>Carrying amount</b>	
	<b>31 March 2020</b>	<b>31 March 2019</b>
Institutional	146.78	168.81
Authorised wholesaler	45.30	94.92
Exports	87.48	112.64
Others	42.98	24.89
	<b>322.54</b>	<b>401.26</b>

#### **Movement in the allowance for impairment in trade receivables**

### Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they become due. The Group manages its liquidity risk by ensuring, that it will always have sufficient liquidity to meet its liabilities when due. The Group's corporate treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by the senior management.

The Group aims to maintain the level of its cash and cash equivalents and other highly marketable debt investments at an amount in excess of expected cash outflows on financial liabilities (other than trade payables) over the next six months. The Group also monitors the level of expected cash inflows on trade receivables and loans together with expected cash outflows on trade payables and other financial liabilities. At 31 March 2020, the expected cash flows from trade receivables is ₹ 320.36 (31 March 2019: ₹ 394.24). This excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

In addition, the Company maintains a line of credit, ₹ 675.60 (31 March 2019: ₹ 274) overdraft facility with various banks that is unsecured. Interest would be payable basis prevailing MCLR rates plus applicable margin (31 March 2019 : MCLR rates plus applicable margin).

The table below provides details regarding the contractual maturities of significant financial liabilities as at 31 March 2020 and 31 March 2019:

### Market risk

Market risk is the risk that changes in market prices - such as foreign exchange rates and interest rates - will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

### Currency risk

The Company is exposed to currency risk to the extent that there is mismatch between the currencies in which sales, purchase are denominated and the respective functional currencies of Group companies. The Company has export sales (3% of total sales) primarily denominated in US dollars and Euro. At any point in time, the Company hedges 95% to 100% of its estimated foreign currency exposure in respect of sales and purchases over the following 12 months. The Company uses forward exchange contracts to hedge its currency risk, most with a maturity of less than one year from the reporting date.

The Company's investment in foreign subsidiaries is not hedged.

#### Exposure to currency risk

The summary quantitative data about the Group's exposure to currency risk is as follows:

	31 March 2020		31 March 2019	
	Euro	USD	Euro	USD
Export receivables	-	0.38	-	1.25
Overseas payables	-	-	(0.20)	(0.10)

The Group uses forward exchange contracts to hedge the currency exposure and therefore, not exposed to significant currency risk at the respective reporting dates.

#### Sensitivity analysis

The impact of strengthening/weakening of currency on the Group is not material as Group hedges 95% to 100% of the foreign currency exposure.

#### Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's debt obligations with floating interest rates. The Group's exposure to risk of changes in market interest rate is minimal.

#### Sensitivity analysis

The sensitivity analysis have been determined based on the exposure to interest rates for debt obligations with floating rates. The impact of movement in interest rate by 100 basis points higher or lower and considering all other variables constant, the Group's profit before tax for the year ended 31 March 2020 would decrease / increase by ₹ 0.96 (31 March 2019: ₹ 0.94).

#### Impact of COVID-19

The Group has considered the possible effects that may result from COVID-19 on the carrying amounts of its financial assets, inventory, receivables, loans and advances, property plant and equipment, intangibles etc as well as liabilities accrued. In developing the assumptions relating to the possible future uncertainties in the economic conditions because of this pandemic, the Group has used internal and external information. Having reviewed the underlying data and based on current estimates, the Group does not expect any material impact on the carrying amount of these assets and liabilities. The impact of COVID-19 on the Group's financial statements may differ from that estimated as at the date of approval of these financial statements and the Group will continue to closely monitor any material changes to future economic conditions.

The Group has also evaluated the impact of the same on the aforementioned risks i.e. credit risk, liquidity risk, market risk, currency risk and interest risk and does not foresee any material impact on account of the same.

**Note 55** During the year ended 31 March 2016, based on queries received from Securities Exchange Board of India ('SEBI'), the Company conducted a preliminary internal investigation and discovered certain irregularities by M/s Sharepro Services (India) Private Limited ('Sharepro'), the Company's erstwhile Registrar and Share Transfer Agent. Subsequently, the Company filed a criminal complaint against Sharepro and its employees. Pursuant to the directions issued by SEBI in its interim order dated 22 March 2016, the Company appointed an independent external agency to conduct an audit of the records and systems of Sharepro with respect to past transactions. The report of the external agency was submitted with SEBI by the Company vide its letter dated 12 July 2016. In the current year, following the receipt of a Show Cause Notice dated 8 November 2019 from SEBI in a related matter, the Company has filed a Settlement Application, which was considered and cleared by the Internal Committee of SEBI on 11 March 2020 for further approvals and is presently awaiting final Settlement orders from SEBI. The Company continues to evaluate additional steps, if any, based on the directions of SEBI or any other regulatory authorities.

Based on consultations with its legal counsel, the Company has been advised that the liability will not devolve on the Company and thus no provision is considered necessary. Further, the Company has a right to claim losses, if any, from Sharepro and accordingly the Company does not plan to make good the losses on its own account.

**Note 56** The Board of Directors at their Meeting held on 6 August 2018 approved the issue of secured non-convertible redeemable fully paid-up debentures as Bonus Debentures of ₹ 60 each out of the Accumulated Profits of the Company, in the ratio of 1 Bonus Debenture for every 1 equity share of ₹ 2 each held by the shareholders on a Record date as may be decided by the Board. The Board of Directors at their Meeting held on 7 October 2018 approved the Scheme of Arrangement of Britannia Industries Limited and their Members for issue of bonus debentures in accordance with Sections 230 to 232 of the Companies Act, 2013 read with the rules made thereunder. Following the approval of sub-division of equity shares of face value of ₹ 2 each into 2 equity shares of face value of ₹ 1 each by the Members, the Bonus Debenture Committee constituted by the Board of Directors, approved the revision in the Scheme of Arrangement to give effect to the aforementioned sub-division changing the value of Bonus Debenture to ₹ 30 per Debenture. Thereafter, the Company obtained necessary approvals from the BSE Limited, the National Stock Exchange of India Limited, the SEBI and filed a Company Application with the Hon'ble National Company Law Tribunal (NCLT), Kolkata Bench for approval of the Scheme of Arrangement. The Hon'ble NCLT, Kolkata Bench, vide its order dated 2 August 2019 sanctioned the Scheme of Arrangement for the issue of one Bonus debenture of ₹ 30 each per equity share of face value ₹ 1 each of the Company to all shareholders whose names appear on the register of members on the Record date. The Board, at its meeting held on 9 August 2019, fixed the record date to determine the eligibility of the shareholders for the Bonus Debentures as 23 August 2019 and the rate of interest at 8% p.a. payable annually. Subsequently, the Bonus Debenture Committee at its Meeting held on 28 August 2019 allotted the Bonus Debentures. The final listing and trading approval for the bonus debentures was received from the BSE Limited and the National Stock Exchange of India Limited on 7 October 2019 and the bonus debentures were listed on both the exchanges w.e.f 9 October 2019. The term of bonus debentures is 3 years from the date of allotment.

**Note 57** Considering the economic viability of the business, the operations of Daily Bread Gourmet Foods (India) Private Limited have been discontinued during the previous year.
